Collins Connect

Collins Connect is an innovative online learning platform designed to support teachers and pupils by providing a wealth of content and interactive activities – ideal as a front-of-class teaching and learning tool and to support independent learning and home/school links.

Collins Connect has been designed to . . .

- ✓ Enable you to teach flexibly
- ✓ Be simple to use
- ✓ Be straightforward to set-up
- ✓ Make testing and reporting easy
- ✓ Work beautifully across all devices
- ✓ Provide ongoing support

Supporting you with assessment

The simple online Record Keeping Tool is designed to help you keep track of each pupil's level of mastery against national standards.

Visit
connect.collins.co.uk
to sign up for a 14-day
free trial

Don't miss out!

We will be adding new content to **Collins Connect** regularly. To keep up to date with what is available go to connect.collins.co.uk to access the latest sample chapters and register for a free trial, or contact education.support@harpercollins.co.uk for the latest information.

More than 300 ebooks now available!

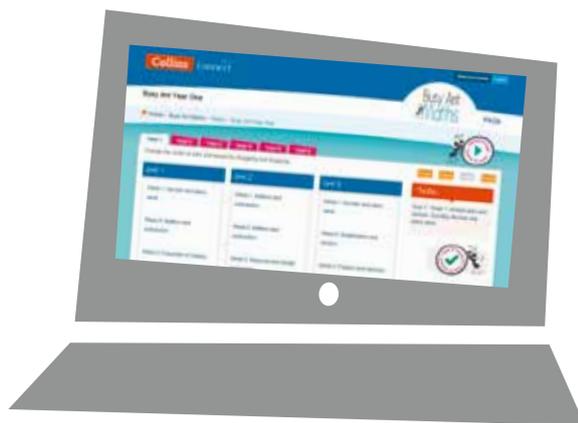

Collins
BIG CAT

Read and interact with Collins Big Cat Progress and KS1 ebooks on any device. Whether your class are at school, at home or on the move, they can practise and enjoy reading.
For more information see page 15

Features an easy to use planning, assessment and record-keeping tool to track pupil progress.

For more information see page 32

A comprehensive skills-based, flexible bank of digital resources designed to match the new English curriculum. It houses literacy and language resources, all under one roof while the Record Keeping Tool tracks and stores children's progress against curriculum objectives.

For more information see page 16

An online toolkit for teaching science, including support for planning, teaching and tracking progression. It also includes videos to enable you to make real-world links, animations to help explain abstract concepts, and slideshows with high quality images and text.

For more information see page 52

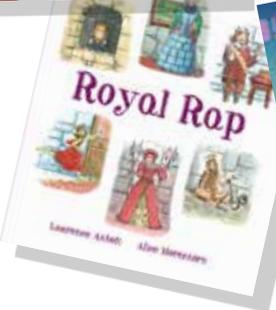

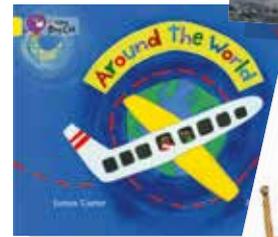

Collins
BIG CAT

COLLINS BIG CAT contains over 600 books and more than 300 ebooks, levelled to match the Institute of Education's book bands for guided reading. From Lilac band containing wordless books for emerging readers; through to Pearl band – extended books for your gifted readers.

USE BIG CAT FOR GUIDED READING...
 Every Big Cat Book features a bespoke guided reading session plan in the back of the book, written by a literacy expert.
 The level of detail and interest on each page gives plenty of material for discussion, leading to a dynamic guided reading session.
 Plus, each Big Cat book contains a reader response page, giving the child ways back into the text so you can assess comprehension.

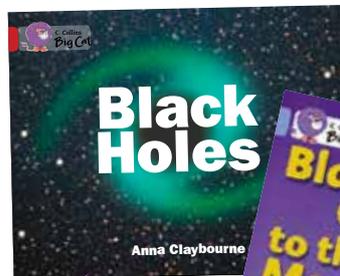

Collins Big Cat is the reading programme with a **WIDE VARIETY OF GENRES, TOP AUTHORS, RELEVANT TOPICS** and a range of engaging formats and illustrative styles.

It helps you to deliver the 2014 English Programme of Study and **INSPIRE** your pupils with a wide range of text types **INCLUDING TRADITIONAL TALES, LITERARY CLASSICS, POETRY AND DRAMA.**

It also supports reading to learn with **OVER 600 BOOKS FOR 3-11 YEAR OLDS**, and an equal **MIX OF FICTION AND NON-FICTION, COVERING TOPICS AND THEMES FROM THE 2014 CURRICULUM.**

so the children who prefer to explore facts have just as much to read as the ones who love a good story

And it features **THE BEST AUTHORS AND ILLUSTRATORS** who are known for creating brilliant books and engaging **STORIES LOVED BY CHILDREN.**

COLLINS BIG CAT ALSO ENSURES COMPREHENSION with title-specific practical classroom activities included in every book and is matched to Reading Recovery and quizzed for Accelerated Reader.

they all look different, just like 'real' books

ASSESSMENT IN COLLINS BIG CAT

Formative assessment opportunities are available in every book – teachers notes provide additional strategies and question prompts encourage children to recall, infer, predict and connect, thereby demonstrating their depth of comprehension.

COLLINS BIG CAT SETS

Collins Big Cat Sets are the best-value way to buy, with a discount on every pack.

Each Set contains the complete range of titles from each band with a discount on the combined price.

THE IDEAL WAY TO BOOST YOUR READING RESOURCES, PLUG GAPS, OR TRY OUT THE SERIES – plus they are quick and easy to order!

See the order form for a full list of Big Cat Sets.

AND NOW AVAILABLE AS EBOOKS

300 readers available to use in school and at home, on any device.

COLLINS BIG CAT FOR KEY STAGE 1

14 levelled bands – from wordless books in Lilac to Lime books for developing readers.

LILAC to RED B

Supporting emergent readers in Reception and Year 1 with the very simplest of texts and providing support through illustrations.

YELLOW to ORANGE

Supporting early readers in Year 1 – starting to bring in more complex, less strongly patterned narratives with less repetition. Non-fiction books use diagrams, labels and captions. Orange band uses more literary language and complex sentence structures with less support from illustrations.

TURQUOISE to LIME

Ideal for developing readers in Years 2 and 3. Increasingly longer texts that feature more rounded and distinctive characters and introduce the expression of feelings. Use is made of more complex sentences and a wider vocabulary, with White and Lime readers for children who are becoming fluent readers making use of subordinate clauses and more figurative language.

COLLINS BIG CAT FOR KEY STAGE 2

COPPER to DIAMOND

Suitable for fluent readers in Years 3 to 6, Copper through to Diamond bands use an increasingly challenging range of vocabulary and cross-curricular topics, themes and genres to provide access to the whole of the KS2 curriculum. They feature a range of text types – narrative fiction, poetry, plays, and a wealth of non-fiction to keep everyone in the class interested.

NEW KS2 TITLES

supporting the curriculum
are available in January, May and
September 2016, keep up to date at
collins.co.uk/collinsbigcat

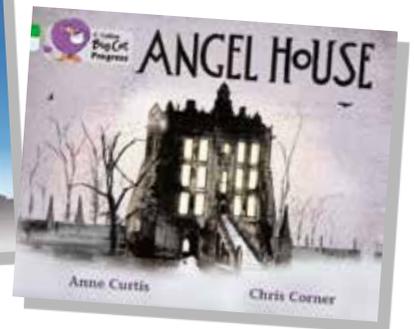

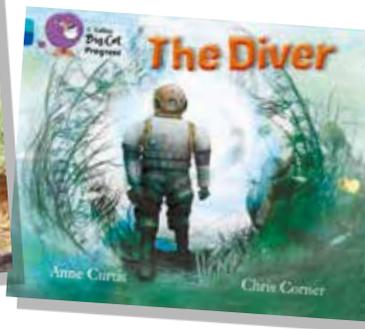

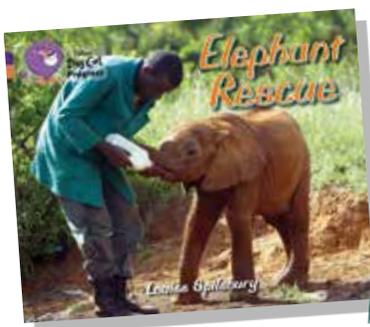

BIG CAT SETS are the best value way
to buy – 1 of each title in a band in each set,
with **20% DISCOUNT** built into the price.
See the order form for details!

PROGRESS FOR STRUGGLING READERS

Collins
BIG CAT
Progress

Support struggling readers with books tailor-made for them.
Help to develop accurate, fluent readers whilst also inspiring a new love of reading and confidence.

PEARL FOR HIGH ACHIEVERS

Collins
BIG CAT

Challenge your gifted readers with **Collins Big Cat Pearl**, ideal for bridging the gap between levelled and free readers.

- Extended reading which is guaranteed to be age appropriate
- Develops analytical skills with complex themes and thought-provoking activities, perfect for comprehension practice
- Practice comprehension with free accompanying worksheets
- High quality fiction with a wide range of genres, including retellings of Shakespeare to support the English Programme of Study
- Non-fiction that delivers factual and technical content to support the new curriculum for History, Geography and Science

RISE OF THE MAYA

Central America stretches out like a rope, tying together the two large continents to the north and south. People have lived here for over 20,000 years.

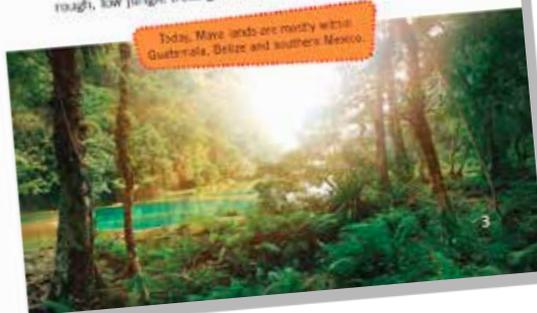

2

The people who would become the Maya travelled down from the north 9,000 years ago. They settled in the land between the Caribbean and the Pacific coasts. Some made their homes in the mountains of the south, and along the Pacific shore. Here the climate was cool and wet. Volcanoes produced the glass-like rock that the Maya used for tools.

Just north of the mountains, there was lower, gently-sloping country covered with thick tropical forests. This region was warmer and damper than the mountains, and criss-crossed by rivers. Many beasts, fish and birds darted through the water and jungle, providing lots of food for the Maya who lived here.

Farther north still were hot lowlands that were mostly drier, with no rivers. The Maya who lived here drew water from vast, deep water holes called "conchos". Because of the heat and dryness, rough, low jungle trees grew, rather than dripping rainforest.

Today, Maya lands are mostly in Guatemala, Belize and southern Mexico.

PUPIL
BOOKS

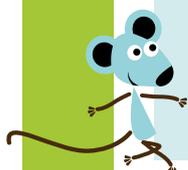

- Boost all of the core language skills embedded across the new rigorous English Programme of Study including comprehension, composition, vocabulary, punctuation and grammar plus spelling
- A Teacher's Guide for each year group covers all of the requisite attainment targets woven into 15 genre-based teaching sequences
- With complete coverage of all four strands from the new Programme of Study, Treasure House provides a comprehensive assessment solution enabling you to track, monitor and report at an individual and whole-class level
- Explore immersive literature and encourage reading for pleasure in The Reading Attic with the most exciting children's authors
- Each strand includes engaging and motivating pupil-facing activities delivered online via Collins Connect and in the pupil books

6
TEACHER'S
GUIDES

How is Treasure House structured?

Print and digital pupil resources are organised into the skills laid out in the curriculum: Comprehension; Composition; Vocabulary, Grammar and Punctuation; and Spelling. All these skills are brought together in Treasure House, which is ideal as a whole programme or for practice in a specific curriculum area.

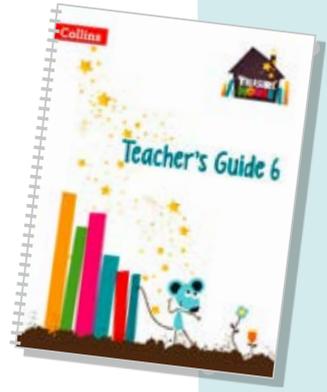

Teacher resources

Treasure House offers teacher support for each year group

The curriculum for each year group is brought together into a coherent framework, which you can use as a complete plan for your whole year's literacy lessons, or as a flexible starting point. The Teacher's Guides support you in delivering a more demanding skills-based curriculum and in progressing children's core language skills.

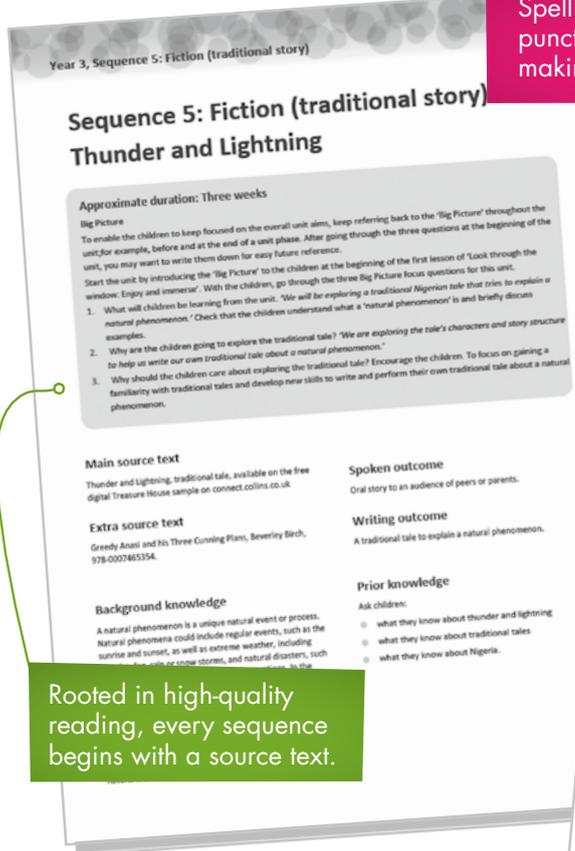

The 15 structured teaching sequences for each year group follow the same four phases:

- **Enjoy and immerse** engages children with a source text through discussion and comprehension activities
- **Capture and organise** uses discussion, drama and writing to help children analyse the text in more depth and record ideas for written work
- **Collaborative composition** supports group and classwork exploring the process of writing
- **Independent writing** provides opportunities for children to construct their own texts independently

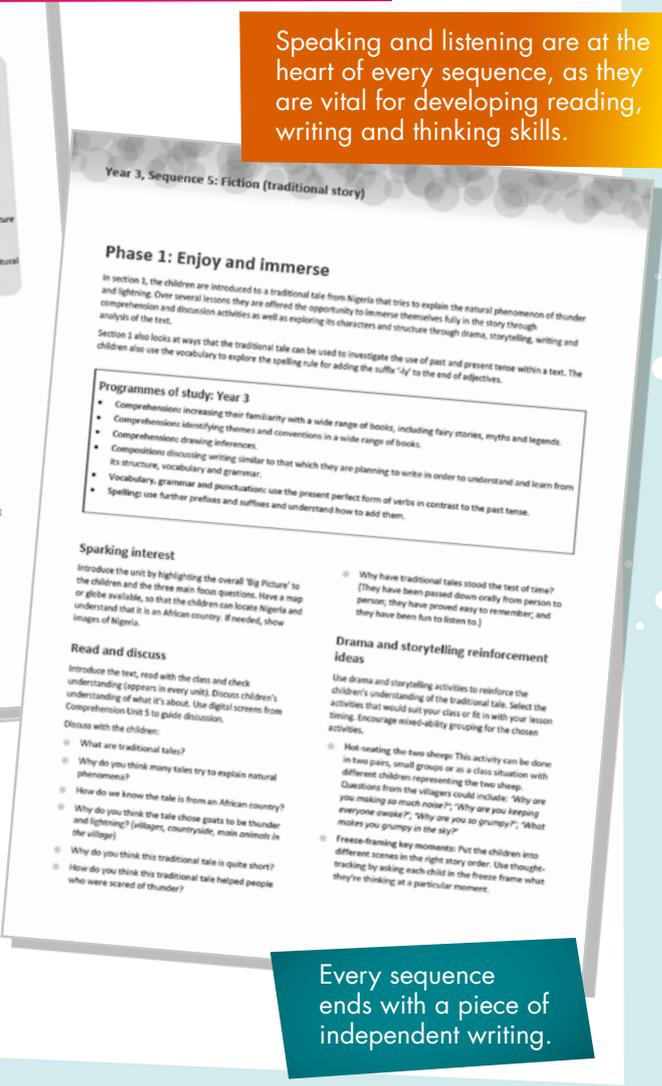

Spelling, vocabulary, grammar and punctuation are taught in context, making learning meaningful.

Speaking and listening are at the heart of every sequence, as they are vital for developing reading, writing and thinking skills.

Rooted in high-quality reading, every sequence begins with a source text.

Every sequence ends with a piece of independent writing.

Teacher's Guides		
Year 1	978-0-00-813360-3	£100
Year 2	978-0-00-813359-7	£100

Year 5	978-0-00-813338-2	£8
Year 6	978-0-00-813337-5	£8

Comprehension

Includes high quality, annotated text extracts covering poetry, prose, traditional tales, playscripts and non-fiction. Pupils will retrieve and record information, learn to draw inferences from texts and increase their familiarity with a wide range of literary genres.

Comprehension 100 2

Fiction (traditional story): 'Thunder and Lightning'

'Thunder and lightning' is a Nigerian folk story.

Thunder and lightning were two grumpy old things. Lightning would lose its temper and knock down trees and burn the crops. Thunder, his brother, who had an extremely loud voice, would stand at home.

The villagers became really fed up with them. The villagers kept complaining about the damage - and the noise.

In the end, the village chief said he couldn't stand it any longer. He said they would have to go far away to live in the sky!

But things didn't work out as the chief intended. To the day, lightning still enjoys getting his own back on the villagers and Thunder still shouts at the top of his voice and keeps the villagers awake at night.

Get started

Copy these sentences carefully and complete them by filling in the gaps using words from the text.

1. _____ and _____ were two grumpy old things.
2. Thunder had an extremely _____ voice.
3. The villagers complained about the _____ and the _____.
4. The village chief said they had to go to _____.
5. Thunder still keeps the _____ awake at night.

Try these

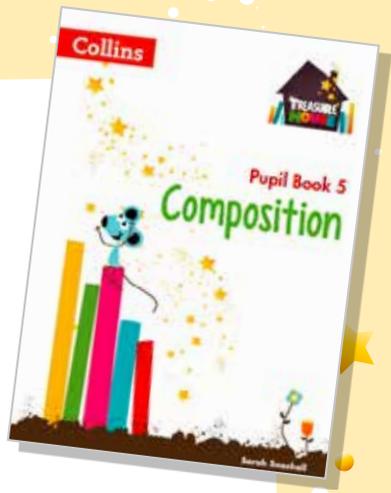

Write a sentence to answer each question. One has been done for you.

1. What did lightning do to annoy everyone in the story?
Answer: Lightning lost his temper, knocked down trees and burnt crops.
2. What is lightning in real life? What damage can it do? Use a dictionary for help if necessary.
3. How did the villagers feel before the chief sent the sheep away?
4. What do you think they wanted to happen?
5. Do you think they were happy in the end? Why do you think this?

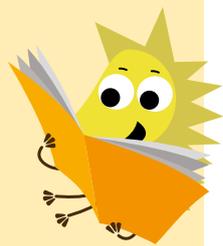

Comprehension Pupil Books		
Year 1	978-0-00-813348-1	£6
Year 2	978-0-00-813347-4	£6
Year 3	978-0-00-813346-7	£8
Year 4	978-0-00-813345-0	£8
Year 5	978-0-00-813344-3	£8
Year 6	978-0-00-813343-6	£8

Composition

Children will learn how to write effectively and for a purpose. Non-fiction units cover organising and summarising ideas, and using different structural devices. Fiction units include planning creative writing, discussing and recording ideas, as well as building more sophisticated sentence structures.

Composition Pupil Books		
Year 1	978-0-00-813354-2	£6
Year 2	978-0-00-813353-5	£6
Year 3	978-0-00-813352-8	£8
Year 4	978-0-00-813351-1	£8
Year 5	978-0-00-813350-4	£8
Year 6	978-0-00-813349-8	£8

Treasure House Assessment

- Developed with diagnostic assessment at the start of each sequence, and featuring drama, storytelling and performance, incidental writing and independent composition within each sequence – all of which offer opportunities for assessment.
- Ongoing formative assessment opportunities are built into every teaching sequence, along with guidance to enable teachers to use what a child has said or written in a lesson to confidently assess their learning.
- The Record Keeping tool in Collins Connect helps you to track children’s progress on an ongoing basis against all curriculum objectives, so you have all the data you need to make your final teacher assessment judgements at the end of the key stage.

The Reading Attic

Discover a bank of texts from much-loved children’s authors for your pupils to explore! Lesson sequences accompany the texts, with drama opportunities and creative strategies for engaging children with key themes, characters and plots.

You can access five extracts from each of the books, with an accompanying lesson for each extract. Enough to get even your reluctant readers enthralled!

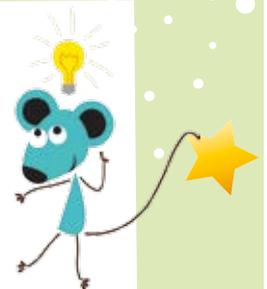

Collins Connect

Digital pupil resources for Treasure House are available on Collins Connect, an innovative learning platform designed to support teachers and pupils by providing a wealth of interactive activities.

Just go to connect.collins.co.uk/primary-teaching-resources to find out more and view sample material.

For full Connect pricing information please see the order form.

Year 6, Sequence 2
Fiction: Traditional stories

Sequence 2 Fiction: Traditional stories

Approximate duration: Two weeks

Big Picture

Through this teaching sequence, children will explore the way in which a traditional folktale with a clear message can be regenerated within a modern context. Through the process of evaluating and rewriting the tale, children will understand the technique used by authors of embedding deeper layers of meaning within a text. Children will be able to write text that has an impact on readers' responses.

Phase 1: Enjoy and immerse

Children analyse the structure and meaning of the model text, 'The Discontented Fish'.

Phase 2: Capture and engage

Children begin to develop ideas for creating their own version of the folktale within a modern context.

Phase 3: Collaborate and compose

Children undertake supported writing sessions to develop the writing features of their modern folktale.

Phase 4: Write independently

Children write, edit and present their own modern folktale that contains a message for readers.

Main source text

Treasure House Anthology Sequence 2 text, 'Treasure House Classic', Year 6, Comprehension Unit 2: Fiction (traditional) 'The Discontented Fish'

Extra source texts

'The Tortoise and the Eagle', *Stories from Aesop*, ISBN 978-1-40510893-5, pp.239-242

Background knowledge

'The Discontented Fish' is a tale about a fish who is unsatisfied with his life so he goes to find a grander home. He is arrogant and believes he is better than his peers. When he gets to his new home, he realises the value of his original community. He returns and is thereafter a more appreciative community member. This version originates in West Africa but the moral of the story is to be content with what you have. This version originates from Senegal in West Africa but the moral of the story is to be content with what you have. This version originates from Senegal in West Africa but the moral of the story is to be content with what you have. A folktale is a story originating in popular culture, passed on by word of mouth. 'The Discontented Fish' is a type of folktale called a 'fish'. A folktale is a short story, typically with animals as characters, conveying a moral.

Spoken outcome

To perform an oral version of children's written stories to an audience of peers or parents

Writing outcome

To rewrite 'The Discontented Fish' as a tale of a year-6 child going to secondary school

Prior knowledge

Check children's knowledge and understanding of:

- what distinguishes folktales and fables
- the location of Senegal, West Africa
- the meaning of 'discontent'.

Year 6, Sequence 2
Fiction: Traditional stories

Diagnostic assessment options

Before starting the sequence, you may want to conduct an initial diagnostic assessment of the children's understanding of the typical characteristics of traditional folktales or fables.

- Ideas for initial diagnostic assessment options include:
- discussion about traditional folktales or fables and their structure
 - a brief, unsupported writing activity to create a folktale or fable
 - practical speaking and listening skills relating to a well-known short folktale or fable
 - a short reading comprehension activity / quiz on a folktale or fable.

Cross-curricular links

KS2 Geography – Locational knowledge

Locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human features, weather, and climate.

KS2 Geography – Geographical skills and fieldwork

Use maps, atlases, globes and digital / computer mapping to locate countries.

Treasure House links

All digital and dual-book units have the same names and numbers, but different questions.

- Treasure House, Year 6, Comprehension Unit 2: Fiction (traditional): 'The Discontented Fish'
- Treasure House, Year 6, Composition Unit 1: Story planning
- Treasure House, Year 6, Composition Unit 2: Summaries

Resources

Globe or atlas to show location of Senegal, see Editor's checklist

Each sequence begins with prior knowledge and diagnostic assessment options that will guide both the starting point of the sequence and the necessary learning focuses as it progresses.

Incidental writing opportunities provide a wealth of information on each child's writing abilities, which can be used to alter the focus of the vocabulary, grammar and punctuation teaching.

Year 6, Sequence 2
Fiction: Traditional stories

Phase 1: Enjoy and immerse

In Phase 1, the children are introduced to a traditional folktale from Senegal that contains the message 'Be content with what you have.' Over several lessons they are offered the opportunity to immerse themselves fully in the story through comprehension and discussion activities as well as exploring its characters and structure through drama, storytelling, writing and analysis of the text.

Programmes of study: Year 6

- Comprehension:** Increase their familiarity with a wide range of books, including myths, legends and traditional stories, modern fiction, fiction from our literary heritage, and books from other cultures and traditions.
- Comprehension:** Check that the book makes sense to them, discussing their understanding and exploring the meaning of words in context.
- Comprehension:** Discuss and evaluate how authors use language, including figurative language, considering the impact on the reader.
- Composition:** Identify the audience for and purpose of the writing, selecting the appropriate form and using other similar writing as models for their own.
- Vocabulary, grammar and punctuation:** Use modal verbs or adverbs to indicate degrees of possibility.
- Spelling:** Use words with endings which sound like /i:/ (spelt -ious or -ious).

Sparking interest

Introduce the sequence by highlighting the overall Big Picture to the children: they will be working towards writing their own modern version of the tale. Have a map or globe available, so that the children can locate Senegal and understand that it is an African country. If needed, show images of Senegal.

Use an opening question such as: 'Why do you think folktales and fables have stood the test of time?'

Reading and discussion

Read the text with the class and check their understanding and content.

Ask the children: 'What is the story about?' 'How does the main character feel?' 'What do you think the author's message is?'

Ask the children: 'How do you think the character feels?' 'How do you think the character feels?'

Ask the children: 'How do you think the character feels?' 'How do you think the character feels?'

Ask the children: 'How do you think the character feels?' 'How do you think the character feels?'

Drama and storytelling

Use drama and storytelling activities to reinforce the children's understanding of 'The Discontented Fish'. Select the activities that would suit your class or fit with your lesson timing. Encourage mixed ability grouping for the chosen activities.

Storytelling: Become a storyteller. Explain that storytellers would read different traditional stories to people often sitting around them. The children could create sound effects or use props to bring the characters to life.

Paper show: Make puppets of the fish characters. Children can work in small groups, using the puppets to perform a retelling of the story to the class or to other children.

Not reading the fish: This activity can be done in pairs, small groups or as a whole class. Children with different reading levels can be paired together. Questions could be: 'What made you so unhappy in the small pool?' 'Why did you feel what you did in the river?' 'Why did you decide to come back?' 'What do you imagine might have happened if you hadn't returned?'

Year 6, Sequence 2
Fiction: Traditional stories

- Freeze frame with thought tagging:** Either in small groups or as a whole class, the children create a movement that shows the action in a narrative frozen in time, as if the pause button has been pressed. The teacher (or a child) gently taps a character on the shoulder to 'unfreeze' them. That child then voices their thoughts in character. This activity encourages children to engage with the actions and thoughts of the characters.

Incidental writing

A short writing activity would enhance the children's understanding of the text and characters. Select activities that you think are appropriate for the abilities and interests of your class. Use your children's written outcomes to inform the emphasis during the collaborative composition phase. Children could:

- rewrite part of the tale from the perspective of a different character, for example, one of the other fish that live in the small pool
- write a short, one-paragraph summary of the story
- write a letter of complaint from the little fish to the older fish in the small pool when they feel fed-up of the big fish's meaning.

Analysis

Show the text to the children and discuss the following characteristics commonly found in folktales, either by pointing to them, asking children to find them or prompting children to discover them.

- Characters that are animals but behave like human stereotypes
- An opening that quickly establishes the setting and the main character
- The name of the main character in the title
- Simple dialogue that moves the story along and often takes a question and answer format or involves the characters reflecting on the situation
- A moral or message as the ending

Grammar: Adverbs and modal verbs showing possibility

Remind children that adverbs and modal verbs can show how likely the action of a verb is.

- Adverb: perhaps, maybe, possibly, probably, definitely, certainly, surely
- Modal verbs: can, could, may, might, shall, should, will, would

Add the adverbs and modal verbs onto cards or sheets of A4 paper (one word per card). Each child takes one word. Challenge the children to organise themselves so they are standing in a line holding up their word cards in order of likelihood.

Provide children with a copy of 'The Discontented Fish' and challenge them, in pairs, to find and highlight as many examples of adverbs and modal verbs showing possibility as they can.

Offer the sentence, 'You _____ do your homework.' Invite children to find words in the space and discuss the changing meaning.

Phonics and spelling

Display the word 'suspicious' on the board and underline the 'ous' part. Explain to the children that the ending -ious can be added to turn nouns into adjectives.

caution + ious = cautious

Explain that, because -ious and -ious both spell the /jʊʃ/ ending -ious or -ious, if the root word ends in -us, the root word ends in -ious, the ending is -ious (remove the -us before adding -ious). There is one common exception word: 'ambitious'.

For this list of -ious / -ious words, ask the children to discuss the meaning of each word, then look it up in a dictionary to check. Then write each word in a short sentence. You could link the sentences to the theme of the model text, 'The Discontented Fish'.

-ious / -ious words: spacious, vicious, infectious, gracious, ambitious, cautious, precious, nutritious, malicious

Review of the Big Picture

Once you have completed this phase, remind the children (or have them remind one another) of the sequence's Big Picture: they are working towards independently writing their own modern version of the tale.

Children are encouraged to complete drama, storytelling and/or oracy activities in Phases 1 and 2, engaging with characters in role and with different forms of expression.

Year 6, Sequence 2
Fiction: Traditional stories

Phase 4: Write independently

This final phase brings all the children's learning and writing skills together so that they can write their own modern version of the investigating and applying to their shared writing in the previous phases.

Programmes of study: Year 6

- Composition:** Select appropriate grammar and vocabulary, understanding how such choices can change and enhance meaning.
- Comprehension:** Narratives, describe settings, characters and atmosphere and integrate dialogue to convey character and advance the action.
- Composition:** Assess the effectiveness of their own and others' writing to suggest improvements.
- Composition:** Propose changes to vocabulary, grammar and punctuation to enhance effects and clarify meaning.
- Composition:** Proofread for spelling and punctuation errors.
- Composition:** Perform their own compositions, using appropriate intonation, volume and movement so that meaning is clear.

Introduction

Introduce this phase by highlighting the Big Picture to the children. Recap on learning and progress through Phases 1-3 and explain that in Phase 4 they will be applying their learning to write their own folktale independently. Discuss and list examples of moral messages encountered in folktales. Recap on the typical characteristics of folktales from earlier in the sequence. Recap on the planning and writing structure used in Phase 3.

Writing

Give each child a story planner and encourage them to start writing their own folktale. Display 'Fish' text for reference. All the children should be encouraged to try to write independently to the best of their ability. Less confident children may wish to stick closely to the ideas developed in a class in Phases 2 and 3, more confident children may wish to develop independent ideas. Ask open questions such as: 'How will you show how the character is feeling at this point?' 'Could telling children what to write. Some children may benefit from guided composition. Focus on persistence and resilience in their independent application.

Rehearsing and performing

Once the children have written their modern version of the tale, encourage them to read it either as narrators or by creating a performance. Discuss how similar or different the story's character is feeling at this point? 'Could telling children what to write. Some children may benefit from guided composition. Focus on persistence and resilience in their independent application.

Review of the Big Picture

Once you have completed all the lessons for this phase, remind the children of the sequence's Big Picture. Ask children to reflect on their learning within Phase 3.

Year 6, Sequence 2
Fiction: Traditional stories

Phase 4: Write independently

This final phase brings all the children's learning and writing skills together so that they can write their own modern version of the investigating and applying to their shared writing in the previous phases.

Programmes of study: Year 6

- Composition:** Select appropriate grammar and vocabulary, understanding how such choices can change and enhance meaning.
- Comprehension:** Narratives, describe settings, characters and atmosphere and integrate dialogue to convey character and advance the action.
- Composition:** Assess the effectiveness of their own and others' writing to suggest improvements.
- Composition:** Propose changes to vocabulary, grammar and punctuation to enhance effects and clarify meaning.
- Composition:** Proofread for spelling and punctuation errors.
- Composition:** Perform their own compositions, using appropriate intonation, volume and movement so that meaning is clear.

Introduction

Introduce this phase by highlighting the Big Picture to the children. Recap on learning and progress through Phases 1-3 and explain that in Phase 4 they will be applying their learning to write their own folktale independently. Discuss and list examples of moral messages encountered in folktales. Recap on the typical characteristics of folktales from earlier in the sequence. Recap on the planning and writing structure used in Phase 3.

Writing

Give each child a story planner and encourage them to start writing their own folktale. Display 'Fish' text for reference. All the children should be encouraged to try to write independently to the best of their ability. Less confident children may wish to stick closely to the ideas developed in a class in Phases 2 and 3, more confident children may wish to develop independent ideas. Ask open questions such as: 'How will you show how the character is feeling at this point?' 'Could telling children what to write. Some children may benefit from guided composition. Focus on persistence and resilience in their independent application.

Rehearsing and performing

Once the children have written their independent folktale, encourage them to read it either as narrators or by creating a performance. Discuss how similar or different the story's character is feeling at this point? 'Could telling children what to write. Some children may benefit from guided composition. Focus on persistence and resilience in their independent application.

Review of the Big Picture

Once you have completed all the lessons for this phase, remind the children of the sequence's Big Picture. Ask children to reflect on their learning within Phase 3.

Independent composition enables assessment of writing and appreciation of the progress a child has made.

English Grammar, Punctuation and Spelling Test Revision and Practice

Collins

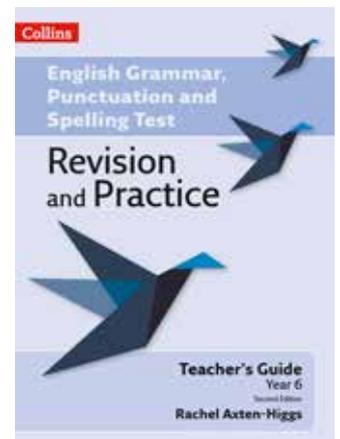

Boost your pupils' core language skills with these comprehensive diagnostic resources that allow you to identify key areas of weakness in your pupils' literacy skills and remedy any misconceptions to ensure your pupils reach their potential in the national tests.

Year 6 Teacher's Guide

Boost children's core language skills in preparation for the Year 6 test.

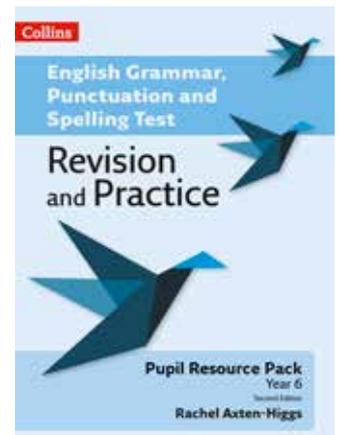

- Diagnostic questions and advice help to analyse children's strengths and weaknesses, enabling targeted intervention work with individuals or groups
- Structured lesson plans and guided teaching activities for every curriculum objective assessed in the English Grammar, Punctuation and Spelling test
- Differentiated activities supports progression for all children

Year 6 Pupil Resource Pack

Resources to develop children's skills for every curriculum objective assessed in the English Grammar, Punctuation and Spelling test at Year 6.

- Follow up tasks to help consolidate learning independently, as well as 'Further Practice' sheets to embed core skills
- Differentiated activities to support progression for all children
- Includes practice papers for ongoing assessment

English Grammar, Punctuation and Spelling Test Teacher's Guide	978-0-00-817327-2	£100.00
English Grammar, Punctuation and Spelling Test Pupil Resource Pack	978-0-00-817328-9	£100.00

Diagnostic tests

The diagnostic tests identify children's strengths and weaknesses. You can then target your revision sessions, by adapting the order in which you complete the units of work according to the needs of your class.

The tests are organised by subject: grammar, punctuation, vocabulary and spelling. Give children a diagnostic test for the area you wish to focus on and identify strengths and weaknesses in.

At the beginning of the year, give children a diagnostic test to help you identify the key areas you need to revise with them.

Level 4 Grammar

Name _____ Date _____

1. Write this sentence in an informal way.

Do you wish to attend the birthday party of Rachel on Saturday?

_____ 1 mark

2. Put a tick next to the scenarios that would require you to write a formal piece of writing.

A letter to a company complaining about a service.

An email to a friend to organise a weekend.

A note to your parents to explain where you are.

A recount of a school visit. 1 mark

3. Write this sentence in a formal way.

My teacher is brill, she is so cool and teaches us kids really well!

_____ 1 mark

www.collins.co.uk © HarperCollins Publishers Limited 2013

Children complete the diagnostic tests individually and in test conditions.

Target and group children with a similar learning need based on the results of the diagnostic tests.

Children gain experience of the kinds of short answer questions they will encounter in the real test.

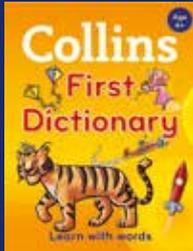

The tests are photocopiable so you can use them as many times as you need to.

Busy Ant Maths

Series Editor: Peter Clarke

Authors: Rachel Axten-Higgs, Caroline Clissold, Caroline Fawcus, Linda Glithro, Elizabeth Jurgensen, Steph King, Martin Marsh, Nicola Morgan, Cherri Moseley, Jeanette Mumford, Jo Power, Janet Rees, Sandra Roberts, Louise Wallace

Busy Ant Maths is a whole-school primary maths programme that ensures confidence from the start of Reception to the end of Year 6. We know how challenging implementing a new curriculum can be, but with **Busy Ant Maths** you can rest assured that our expert ants have it covered!

Busy Ant Basics:

- Provides a cohesive programme of study that ensures progression and mastery while supporting you to deliver the curriculum objectives
- Has assessment at the heart and from the start – with integrated and effective diagnostic, formative and summative assessment which helps to inform your planning and teaching
- Gives you full digital support in measuring attainment and progress with the online Record Keeping Tool on Collins Connect – an adaptable tracking and reporting system
- Engages pupils and helps you to deliver inspiring lessons with slideshows, games, interactive tools and activities all on Collins Connect – and with the Planning Tool it is easy to tailor the content to suit the needs of your class
- Written specifically for the 2014 curriculum by leading maths expert Peter Clarke and his team of experienced authors, and rigorously tested and developed in schools

BUSY ANT MATHS AND A 'MASTERY' APPROACH TO THE TEACHING OF MATHEMATICS

The National Centre for Excellence in Teaching Mathematics (NCETM) has identified certain principles and features that characterise the 'mastery' approach to the teaching of mathematics. These characteristics are embedded throughout the entire Busy Ant Maths scheme – from Foundation to Year 6.

Busy Ant Maths is written with the primary intention of helping teachers to help pupils develop 'mastery of mathematics', and raise levels of attainment for all.

Every component of Busy Ant Maths emphasises, and provides guidance on, the importance of the cyclical nature of teaching – planning, teaching and assessment – in order to best promote 'teaching for mastery'.

You can read more detail on how Busy Ant Maths can help you deliver a mastery curriculum here: collins.co.uk/BusyAntMaths

WRITTEN BY TEACHERS FOR TEACHERS

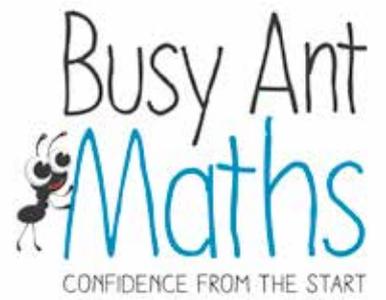

Peter Clarke, Series Editor

Peter is a highly respected mathematics consultant and lecturer working throughout the UK and abroad. A former maths subject leader, deputy headteacher and LEA advisor, he has extensive experience in teaching and writing for primary mathematics education.

Peter has an expert team of authors with over 50 years of teaching experience between them. The main authors, Jeanette Mumford, Sandra Roberts, Jo Power and Elizabeth Jurgensen have all worked in primary schools across the UK (and the world) so they know exactly what works and what doesn't when it comes to teaching maths.

ASSESSMENT AT THE HEART AND FROM THE START

Assessment in Busy Ant Maths

Busy Ant Maths provides comprehensive assessment support with integrated and effective diagnostic, formative and summative assessment which helps to inform your planning and teaching. Whether you are looking at an individual child's progress, at a class, or at a whole year group, **Busy Ant Maths** offers a simple and robust way of recording, tracking and sharing children's progress.

FORMATIVE ASSESSMENT Assessment Guides

Containing a wealth of tasks, exercises, tests, self-assessments, supporting resources and record-keeping formats, these guides can be used to review and record the progress of both individual pupils and the class as a whole, in relation to the National Curriculum Attainment Targets. The formative Assessment Tasks and Exercises provide individual and/or group opportunities to identify those pupils who are not yet reaching, or who are exceeding, national expectations. They can also be used to set individual targets for pupils.

IN-SCHOOL SUMMATIVE ASSESSMENT

An **End-of-unit Test** is provided within the Assessment Guides for each of the 12 Busy Ant Maths units. Each test is designed to assess the mathematics covered during the three-week unit.

Plus, End-of-Year Tests are designed to show individual pupils' level of mastery against national standards at the end of each year. See page 34 for details of the new Test Packs available February 2016.

Record Keeping

The various record-keeping formats found in the Assessment Guides and on Collins Connect are designed to show individual pupils' level of mastery against national standards.

They draw on the data gathered throughout the year, including results from Assessment Tasks, Exercises and Tests, performance in whole-class discussions, participation in group work, written evidence and any other supplementary notes.

These documents form the basis for reporting to parents and guardians and informing the next year's teacher plus help you identify whether pupils are on track to meet end of key stage expectations.

Year 1 Assessment Guide	978-0-00-756815-4	£75.00	Year 4 Assessment Guide	978-0-00-756234-3	£75.00
Year 2 Assessment Guide	978-0-00-756816-1	£75.00	Year 5 Assessment Guide	978-0-00-756829-1	£75.00
Year 3 Assessment Guide	978-0-00-756233-6	£75.00	Year 6 Assessment Guide	978-0-00-756830-7	£75.00

Assessment in Busy Ant Maths

FORMATIVE ASSESSMENT Teacher's Guides

Formative assessment opportunities are built-in throughout each lesson in the **Busy Ant Maths Teacher's Guides**. Prerequisites for learning are highlighted and links to the relevant assessment content and materials are included.

Quickly check that children have the knowledge they need for the lesson with **prerequisites for learning**.

Shared success criteria are provided in each lesson to assist pupils in identifying the steps required to achieve the learning objective.

Multiplication 10×0 : Using the expanded written method (2)

National curriculum attainment target

- Write and calculate mathematical problems for multiplication using the multiplication tables that you know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods

Lesson objectives

- Use repeated written method to calculate multiplication of 10×0
- Estimate and check the answer to a calculation

Previous related lessons: Unit 10, Week 1, Lesson 1; Unit 10, Week 1, Lesson 2; Unit 10, Week 1, Lesson 3

Prerequisites for learning:

- recall the 2, 3, 4, 5, 8 and 10 multiplication tables
- understand the effect of multiplying a number by 10
- add mentally a two-digit number to a two- or three-digit multiple of 10
- add using the formal written method of column addition

Vocabulary: multiple, key fact, multiplied by, multiplication, estimate, approximate, partition, hundreds, tens, ones (units)

Future related lessons: None

Success criteria:

- make a reasonable estimate for the answer to a calculation
- partition two-digit numbers into tens and ones
- multiply 2, 3, 4, 5 and 8 by a multiple of 10
- use the expanded written method to calculate multiplication of 10×0

Getting Started

- Choose an activity from Number – Multiplication and division
- Choose an activity from Fluency in Number Facts, Y3-Y6 – Multiplication and division

Teach

Resources: mini whiteboard, pen and eraser (per child)

- Write the numbers 2, 3, 4, 5 and 8 on the board. Invite a child to suggest a two-digit number. Write this on the board.
- Ask another child to choose a number from the list of one-digit numbers. Create a multiplication number sentence from the chosen numbers and write on the board: e.g. $73 \times 8 = \dots$
- Ask: **What would the approximate answer to this calculation be?** (560)
- Ask: **How did you work out the approximate answer?** (round 79 to the nearest ten and multiply by 8, i.e. $80 \times 8 = 640$)
- Say: **When we calculate the answer we must check that it is close to our approximate answer.** (640)
- Refer children back to the calculation.
- Say: **Explain to your partner how you would work out the answer to this question.**
- Ask children to show their explanations with the class.
- Review how to multiply these numbers using the expanded method, i.e.

Individualised Learning

Refer to Activity 1, 2, 3 and 4 from the Learning activities on pages 446–447.

Pupil Book 3C – Page 40: Multiplication using the expanded written method

Progress Guide 3 – Subject, Year 3, Unit 12, Week 1, Lesson 1: Multiplication using the expanded written method

Plenary

Resources: mini whiteboard, pen and eraser (per child)

- Reinforce the expanded method of multiplication taught in the lesson.
- Write various 10×0 calculations on the board and ask children to write the approximate answer on their mini whiteboards, e.g. 87×3 (261), 58×9 (522), 77×4 (308)
- Ask: **How did you work out the approximate answer?**
- Choose one of the calculations for children to find the answer.
- Say: **Explain to your partner how you would work out the answer to this question using the expanded method on your mini whiteboard.**
- Ask: **Can you explain your method of working out the answer to the class?**
- Say: **Show and explain your method with your partner.**
- Choose individuals to share their method with the class.
- Repeat with other examples.

Overcoming Barriers

- Some children may become confused with the number of different methods there are to work out the answer to 10×0 calculations. You may prefer to teach one method only or allow children to choose the method they find the most effective and efficient. Although children are taught informal and formal methods of calculating 10×0 in readiness for calculations involving larger numbers they should also be working towards being able to carry out 10×0 calculations mentally.

Sample from Year 3 Teacher's Guide

Keep track of your pupils' understanding throughout the lesson with helpful **progress check questions** which are linked to specific learning objectives and designed to provide immediate feedback to pupils.

To help you ascertain where any misunderstandings may have occurred, an **overcoming barriers** section is provided.

Busy Ant Maths Tests Packs

NEW FOR 2016

Boost the performance of your pupils in the new SATs!

These photocopiable packs, one for each year, each contain a practice test that will support you in making a decision as to whether or not an individual child has achieved mastery of the programme of study for each year group.

In June 2016, children will sit the new KS1 and KS2 Maths SATs for the first time. **Busy Ant Maths Test Packs** provide tests that you can easily deliver and mark, using the provided completed test. The test results will support you in being confident that your pupils are on track to meet age-related expectations, as they move between years and key stages.

You can use the tests alongside **Busy Ant Maths Assessment Guides**, or by themselves.

For KS1, there will be 2 papers for each year:

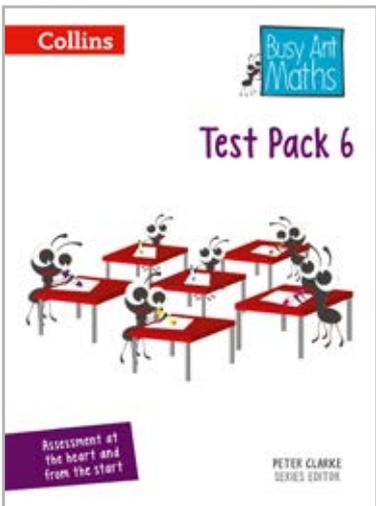

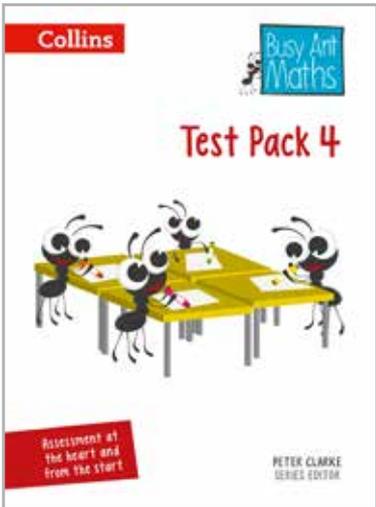

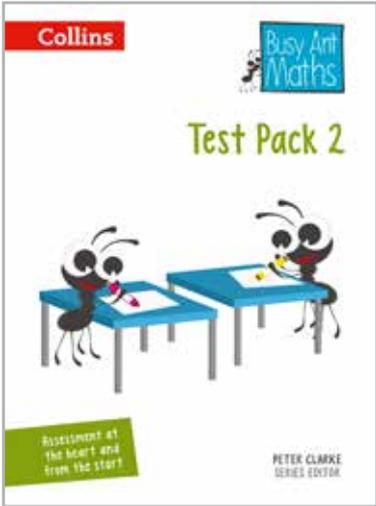

- Paper 1 – Arithmetic
- Paper 2 – Mathematical reasoning

At KS2, there will be 3 papers per year:

- Paper 1 – Arithmetic
- Paper 2 – Mathematical reasoning
- Paper 3 – Mathematical reasoning

Each test is also provided complete with the correct answers in place, to assist in marking plus a full marking scheme and rationale, with any additional information required. You will also be able to record and report results using a raw score and a scaled score, based on the new performance descriptors.

Year 1 Test Pack – February 2016	978-0-00-816736-3	£59.99
Year 2 Test Pack – February 2016	978-0-00-816737-0	£59.99
Year 3 Test Pack – February 2016	978-0-00-816738-7	£59.99
Year 4 Test Pack – February 2016	978-0-00-816739-4	£59.99
Year 5 Test Pack – February 2016	978-0-00-816740-0	£59.99
Year 6 Test Pack – February 2016	978-0-00-816741-7	£59.99

Busy Ant Maths Stretch and Challenge

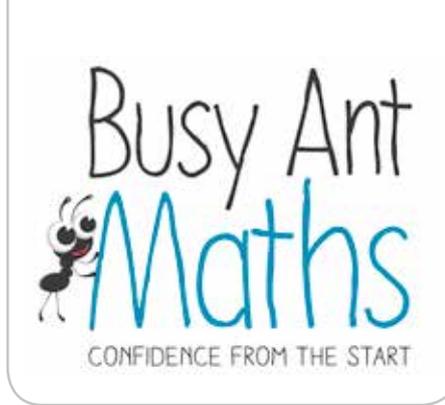

NEW FOR 2016

Challenge your more able pupils with resources for each year designed to broaden and deepen their mathematical understanding.

Busy Ant Maths Stretch and Challenge resources will support you in delivering structured guidance and support for gifted children who are exceeding age-related expectations in mathematics. This problem-solving, cross-curricular programme for children working above end-of-year expectations is ideal if you are looking for a ready-made solution to deliver to the high achievers in your cohort.

Each Stretch and Challenge resource will contain:

- An introduction and matching charts
- 36 sets of pupil activities – one per week, consisting of between 5 and 8 different activities, all related to the same mathematical topic
- 36 sets of teaching notes, to correspond to the activities
- Resource sheets, records of completion, self-assessment and notes – all photocopiable

Issue 1 – Number

Let's Investigate

This abacus shows the number 24 using 6 beads. Write all the numbers you can make on an abacus using 6 beads.

Issue 1 – Number

Looking for Patterns

Use the numbers above to complete each number pattern.

23 20 5 2

2 7 12 17 22

91 81 71 21 11 1

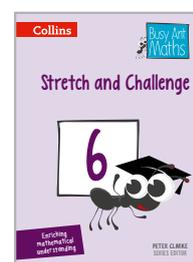

15 17 19 21 23

The Language of Maths

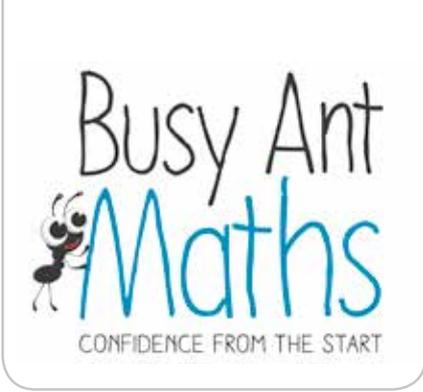

Think of a number between 0 and 50. Make up 3 clues about your number. Can a friend guess your number?

Self-contained activity booklets (issues) promote interdependent thinking and develop children's problem-solving skills. Accompanying teacher's notes for each issue provide guidance, support and next steps.

Year 1 Stretch and Challenge	978-0-00-816730-1	£75.00
Year 2 Stretch and Challenge	978-0-00-816731-8	£75.00
Year 3 Stretch and Challenge	978-0-00-816732-5	£75.00
Year 4 Stretch and Challenge	978-0-00-816733-2	£75.00
Year 5 Stretch and Challenge	978-0-00-816734-9	£75.00
Year 6 Stretch and Challenge	978-0-00-816735-6	£75.00

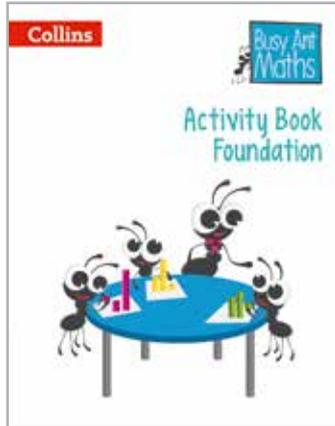

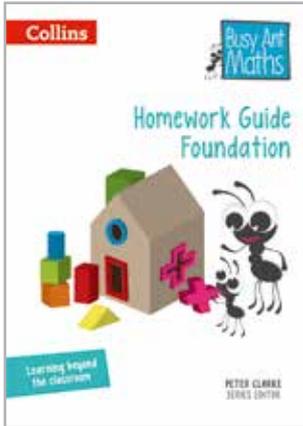

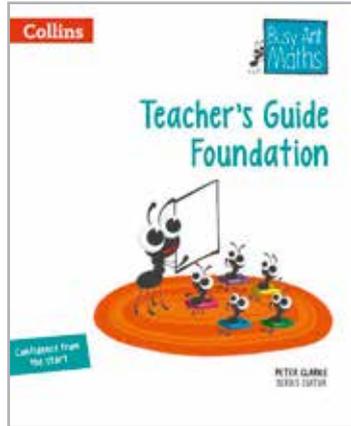

AN EXCITING, WHOLE-SCHOOL
PRIMARY MATHS PROGRAMME

Busy Ant Maths Foundation Stage

The **Busy Ant Maths Foundation Stage** has been designed to raise the attainment for every child to prepare them for Year 1. The new resources fully support the statutory standards of the Early Years Foundation Stage (EYFS) and extend the scope of the **Busy Ant Maths** scheme into the Reception year – providing full continuity for your school.

Foundation Stage on Collins Connect

Collins Connect is an online planning tool where Foundation teachers can customise **Busy Ant Maths** content to suit the needs of their class.

The **Teach** section contains all of the teaching content organised into units. Each unit section contains:

- Word and PDF versions of the unit introductions, teacher-led activities and explore and play activities
- Links to the teaching assets referenced in the activities in the **Games, Tools and Songs** section

The current digital **Record Keeping tool** on Collins Connect supports the Foundation Stage.

In the **Support** section, you will find the calculations policy and the suggested Medium Term Plan.

The **Games, Tools and Songs** section will contain:

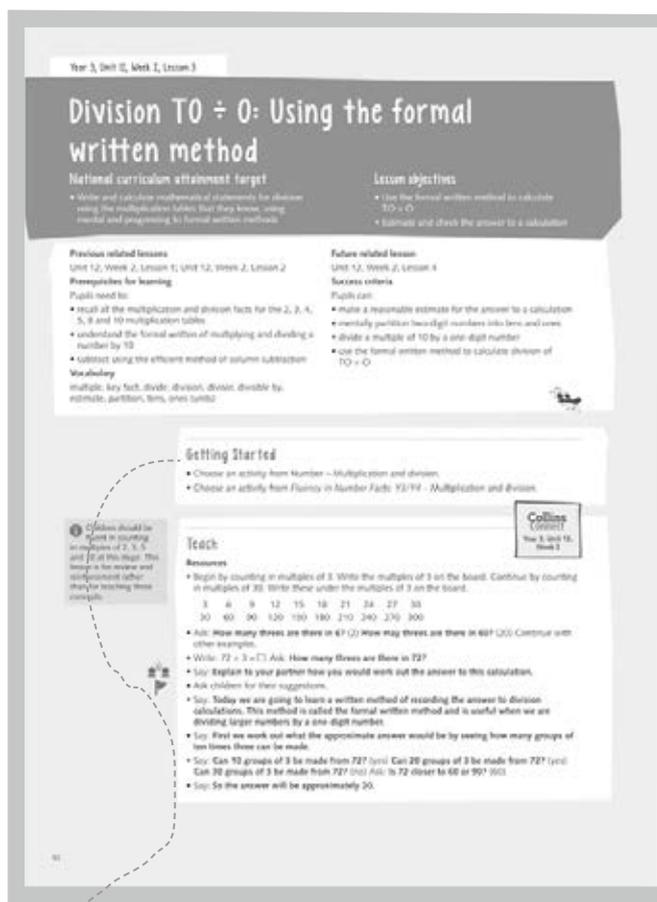

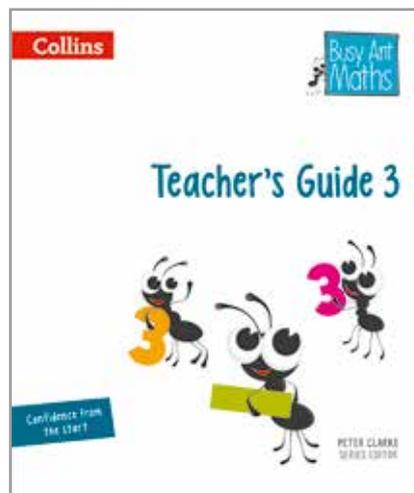

- Sing-along animated songs for children to learn and join in with
- Teacher-led interactive tools for use on the whiteboard
- Games focusing on number sense and place value. These can be used at the front of class or as play time for children

Foundation Teacher's Guide	978-0-00-812462-5	£100.00
Foundation Homework Guide	978-0-00-812463-2	£40.00
Foundation Activity Book	978-0-00-812464-9	£3.00
12 month subscription for Foundation on Collins Connect	978-0-00-812465-6	£200.00 + VAT
36 month subscription for Foundation on Collins Connect	978-0-00-812521-9	£500.00 + VAT

Busy Ant Maths Teacher's Guides

The **Teacher's Guides** provide lesson plans and a clear week by week overview, with expected learning objectives and outcomes for pupils. Pre-requisites for learning are highlighted and links to the relevant assessment resources are included. Each lesson has a consistent structure: Getting Started, Teach, Individualised Learning, and Plenary.

Sample from Year 3 Teacher's Guide

Foundation: Teacher's Guide	978-0-00-812462-5	£100.00
Year 1: Teacher's Guide	978-0-00-756817-8	£100.00
Year 2: Teacher's Guide	978-0-00-756818-5	£100.00
Year 3: Teacher's Guide	978-0-00-756235-0	£100.00
Year 4: Teacher's Guide	978-0-00-756236-7	£100.00
Year 5: Teacher's Guide	978-0-00-756831-4	£100.00
Year 6: Teacher's Guide	978-0-00-756832-1	£100.00

WHAT DO TEACHERS THINK OF BUSY ANT MATHS?

"Busy Ant Maths gives you very clear objectives and success criteria but the way that you deliver it using your kinaesthetic activity or perhaps a visual on the board can really be adapted for the children within your class."
For the full video interview with Laura Reynolds, Year 3 Co-ordinator at South Farnham School, visit our website: www.collins.co.uk/busyantmaths

Each lesson is delivered through a consistent, 4-part structure: Getting Started, Teach, Individualised Learning, and Plenary.

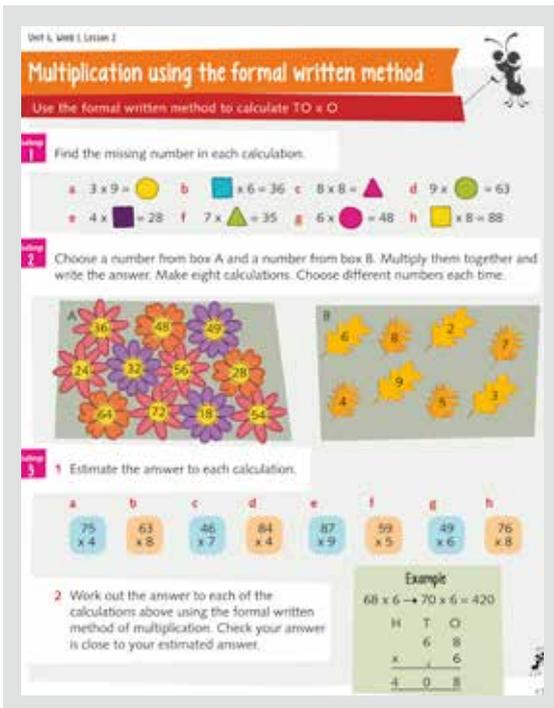

"After doing my research, I found out that Collins were preparing to launch their new maths scheme, having previously been impressed and amazed by the quality of the schemes, I had high hopes! ... The lessons have opportunities to be differentiated in 5 ways and the units are flexible and give teachers the opportunities to be creative. I am extremely impressed with the online planning tool and am really looking forward to implementing this scheme of work across years 3 and 4 and then into years 1 and 5 next year."
Charlotte Angeli, Senior Leader, Chigwell Primary

REACH EVERY CHILD

Busy Ant Maths Pupil Books

With three levels of differentiated challenge built-in to each lesson as well as extra consolidation and extension activities within the **Pupil Books** and the **Progress Guides**, **Busy Ant Maths** ensures rapid progression for every child.

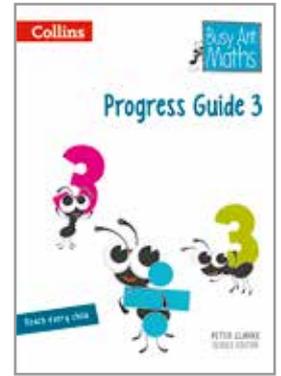

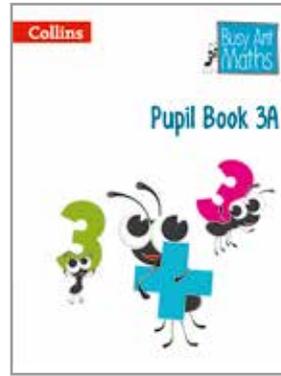

Sample from *Pupil Book 6c*

Busy Ant Maths Progress Guides

The **Progress Guides** contains extension and support resources for those children who need extra practice to master the lesson objective and for those who need an extra level of challenge.

ENSURE PROGRESSION AND MASTERY FOR EVERY CHILD

Busy Ant Maths Homework Guides

Provide a great way to check children's understanding of the lesson objective as well as providing practice and consolidation opportunities.

Year 3, Unit 4, Week 3, Lesson 1
Homework

Name: _____ Date: _____

Right on time

Tell and write the time to the minute on a 12-hour clock with hands

Example

45 minutes past

17 minutes to

Challenge 1 Write these times in two ways.

1 minutes past minutes to

2 minutes past minutes to

Challenge 2 Each clock is either fast or slow. Write what time each clock should show in two ways.

1 20 minutes slow minutes past minutes to

2 10 minutes fast minutes past minutes to

Challenge 3 These clock faces have been reflected in a mirror. Write the correct time for each clock.

1

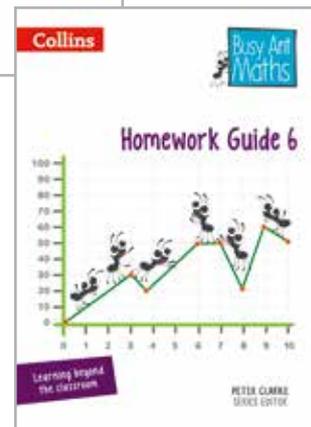

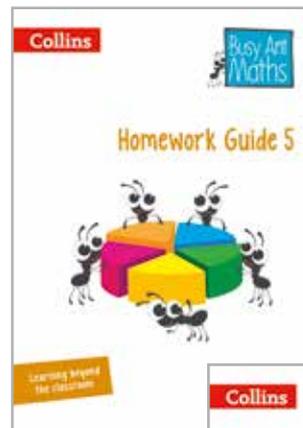

2

3

Working together, look at the TV listings and on the back of this sheet write down the times that 6 different programmes start. Write the times for each programme in two different ways.

Collins Connect

Busy Ant Maths on Collins Connect

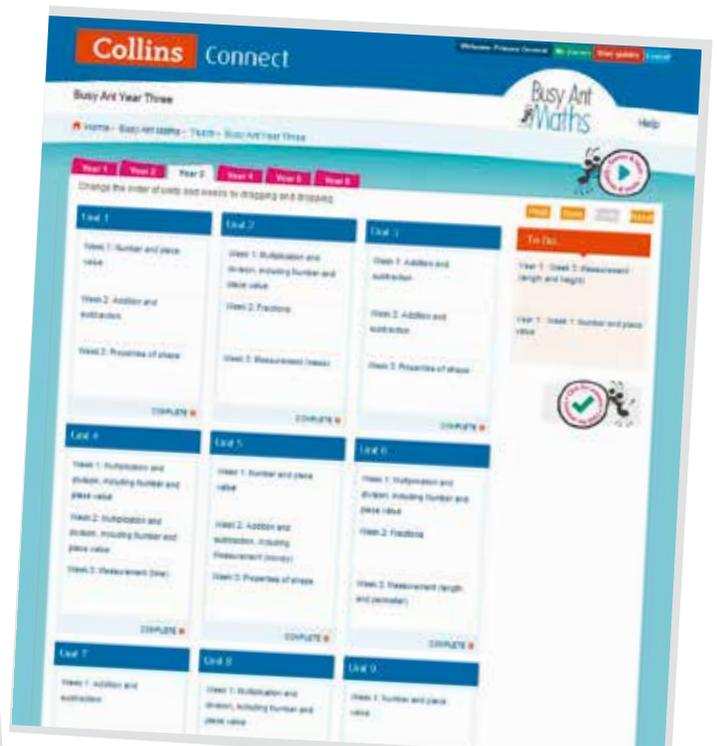

Engage pupils and deliver inspiring lessons with slideshows, games and interactive tools on Collins Connect

Collins Connect is an innovative online learning platform designed to support teachers and students by providing a wealth of content and interactive activities. Ideal as a front-of-class teaching and learning tool, **Collins Connect** also supports independent learning and home/school links.

With an easy-to-use online planning tool at the heart of the resource, **Busy Ant Maths** is simple to implement across your school and gives you the freedom to customise the maths programme of study to suit your own school's needs.

Collins Connect supports teachers when it comes to assessment with a simple online Record Keeping Tool. Teachers can drag-and-drop pupils into the relevant mastery level:

- green = mastery achieved and exceeded
- amber = mastery achieved
- red = mastery not yet achieved.

For full Connect pricing information please see the order form

HELP CHILDREN GAIN CONFIDENCE
AND UNDERSTANDING EARLY ON

Busy Ant
Maths
CONFIDENCE FROM THE START

Busy Ant Maths Games

As part of the **Collins Connect** package, **Busy Ant Maths** includes games to help children develop their mathematical fluency in a fun way. Each game has three levels of difficulty and the option to have a timed or an un-timed game. At the end of each session, the child gets a certificate of achievement with the statistics of their session. This really adds to children's enjoyment of maths as they start to 'get it'!

Includes games that test times tables up to 12×12 - ideal practice for the the new on-screen test!

Sample screenshot from the *Busy Ant Maths Kung Food Fighting* online game

Sample screenshot from the *Busy Ant Maths weight measurement* online tool

Busy Ant Maths Tools

Flexible interactive whiteboard (IWB) teaching tools have been developed to support the teaching of maths in your classroom. Accessible on **Collins Connect**, the **Busy Ant Maths Tools** ensure pupil engagement and support you in the development of interactive maths lessons.

Sample from *Busy Ant Maths Year 1, Unit 1 Slideshow*

Busy Ant Maths Slideshows

Fully editable slideshows are available on **Collins Connect**. Colourful, engaging and specific to the **Busy Ant Maths** lesson you are teaching, these slideshows save you time and effort and help keep children engaged during the lesson.

The Shanghai Maths Project

一课练

NEW

Age
5-16

KS1

KS2

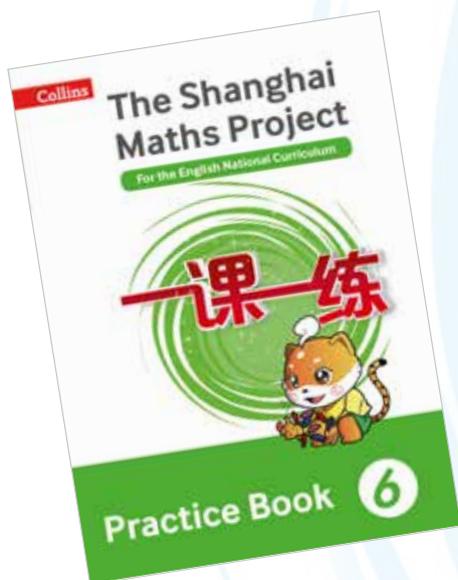

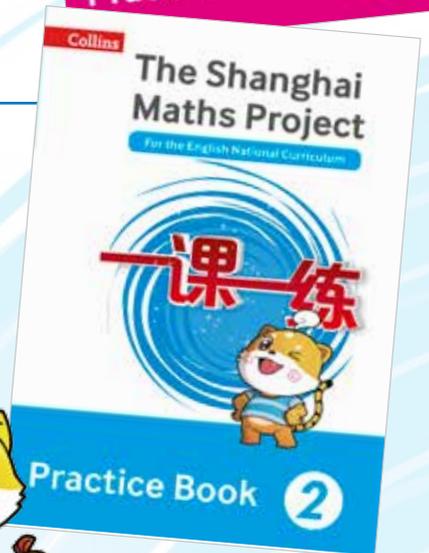

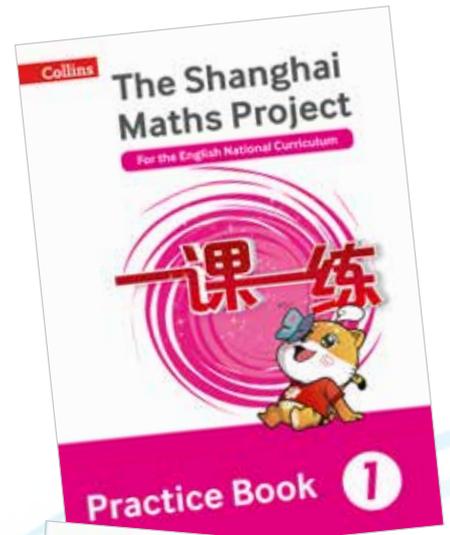

Series Editor: Professor Lianghuo Fan

UK curriculum consultant: Paul Broadbent

Based on maths teaching in Shanghai, this series of practice books for years 1–11 will provide complete coverage of the maths curriculum for England.

Maths teaching in Shanghai is built around the following principles:

- A reinforcement from teachers that everyone can achieve high standards in maths, leading to pupil engagement and excitement about maths
- A methodical curriculum design that helps pupils to progress at the same pace
- A step-by-step teaching approach that builds procedural fluency and understanding of underlying mathematical concepts in tandem
- Immediate feedback where misconceptions are addressed as they occur. Pupils get help and support directly as they work through each lesson

We have created the **Shanghai Maths Project** using an experienced team of authors and reviewers who have taken the original books and correlated them to the English National Curriculum. Attainment targets are covered within the key stages and new material has been written but the structure of the original resource has been preserved and as much original material retained as possible.

Find out more about the Practice Books at
collins.co.uk/shanghaimaths
 To order sample material contact
education.marketing@harpercollins.co.uk

collins.co.uk/shanghaimaths

The Practice Books contain 8–10 chapters made up of exercises and include end of unit tests and an end of year test.

- Carefully crafted practice materials refined over last **24 years**
- Small steps of **progression**, with practice at each stage
- Enough questions to thoroughly **practise and embed** understanding, and no more
- Supplementary **practice material** that is not tied to a restrictive programme
- Full coverage of the curriculum objectives for England

Fluency in Number Facts

Author: Peter Clarke

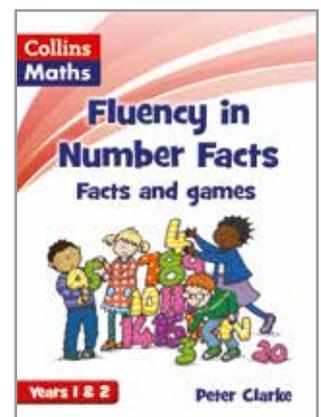

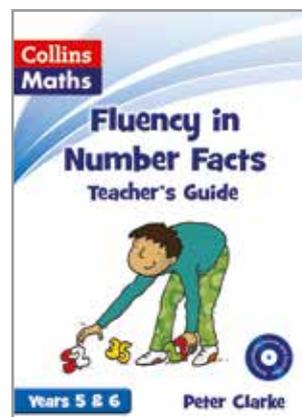

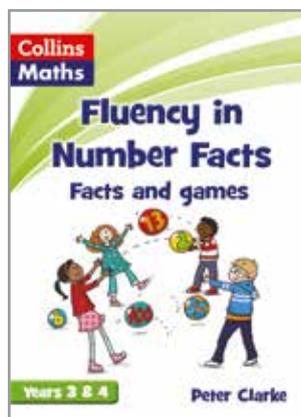

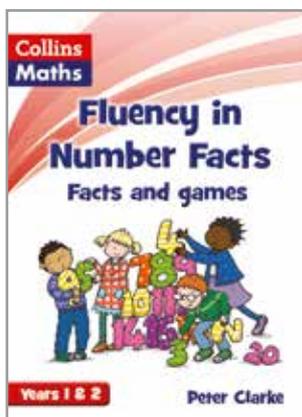

Easy steps to maths confidence

Age
5-11

KS1

KS2

Fluency in Number Facts is packed with exciting games and activities to improve children's recall of number facts and mental maths skills. These activities help to develop children's conceptual understanding and their ability to recall and apply knowledge accurately.

- Improve children's recall of number facts and embed mental maths skills with paired and whole-class activities as well as quick mental maths tests
- Assess children's progress with mental maths tests, including audio support, and self-assessment opportunities
- Cultivate skills with games and activities that can be used within the maths lesson or throughout the day for practise and consolidation

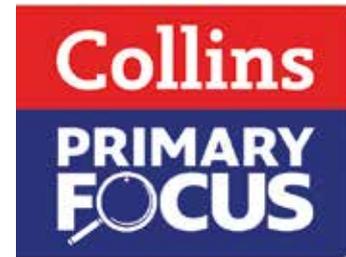

Teacher's Guide Y1/Y2	978-0-00-753127-1	£75.00 + VAT

Level 6 Maths

Author: Rachel Axten-Higgs

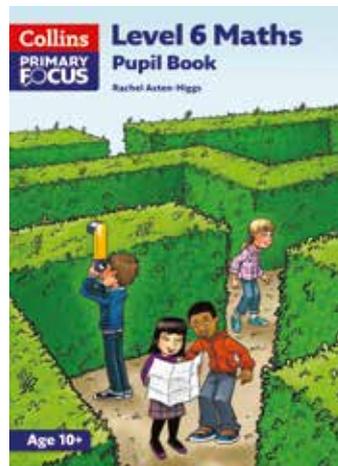

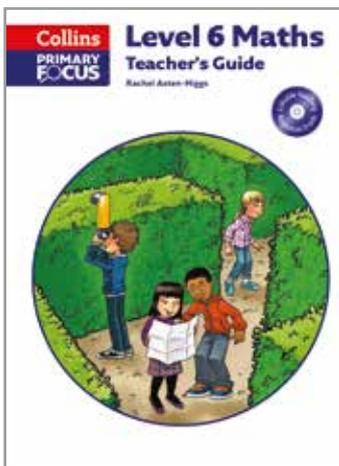

Age
10-11

L6

Written for the previous curriculum, but still a great resource for stretching your high fliers!

Collins Primary Focus Level 6 Maths is a complete solution that boosts success with easy-to-use teaching and practice activities.

Step 1 Recap LEVEL 5

What are equivalent fractions?

Equivalent fractions refer to fractions that are the same proportion of a whole, but are written in different ways.

Collins Level 6 Maths PRIMARY FOCUS

Step 4 Discuss LEVEL 6

What does this mean?

You are given a total amount, e.g. the number of children in a school.
You are then told that a certain number are girls.
You can express this number as a fraction of the total.

Collins Level 6 Maths PRIMARY FOCUS

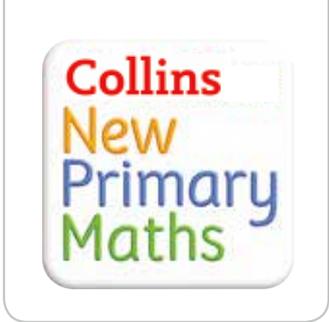

- Ensure all 35 objectives from the KS3 programme of study are covered
- Assess children's progress and identify strengths and weaknesses with diagnostic tests and SATs-style practice papers
- Consolidate existing knowledge before moving on
- Save time with plans for group sessions including teaching activities, question prompts, demonstration material and worked examples – ideal for the non-specialist

Level 6 Maths: Teacher's Guide	978-0-00-753115-8	£128.00 + VAT
Level 6 Maths: Pupil Book	978-0-00-753116-5	£5.95

Improving Key Skills in Maths

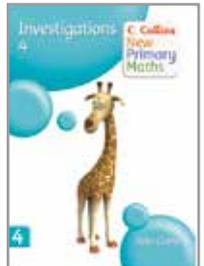

Age 4-11 KS1 KS2

Collins New Primary Maths books were written for the previous curriculum but still offer great support and extension for struggling and confident pupils.

Investigations

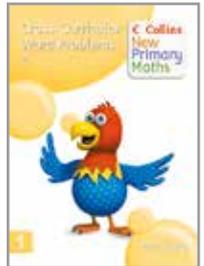

- A set of open-ended real-life mathematical investigations aimed at stimulating the interest of your pupils whilst improving and sharpening their maths skills
- More than 60 investigations for each year group that include support for assessing the children as they progress

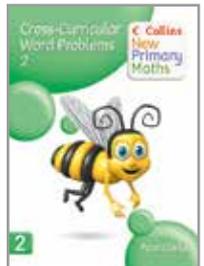

Investigations 1	978-0-00-732291-6	£35.00	Investigations 4	978-0-00-732294-7	£35.00
Investigations 2	978-0-00-732292-3	£35.00	Investigations 5	978-0-00-732298-5	£35.00
Investigations 3	978-0-00-732293-0	£35.00	Investigations 6	978-0-00-732299-2	£35.00

Cross-Curricular Word Problems

- Using scenarios and topics from other curriculum areas, these differentiated word problems will get children using and applying their maths skills in real-life, everyday situations
- Each resource has 40 activities to help children practise and consolidate their maths skills

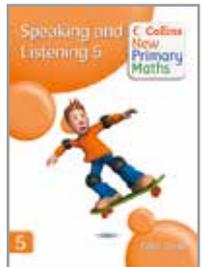

Cross-Curricular Word Problems					
Cross-Curricular Word Problems 1	978-0-00-732285-5	£35.00			
Cross-Curricular Word Problems 2	978-0-00-732286-2	£35.00

KS2

AS

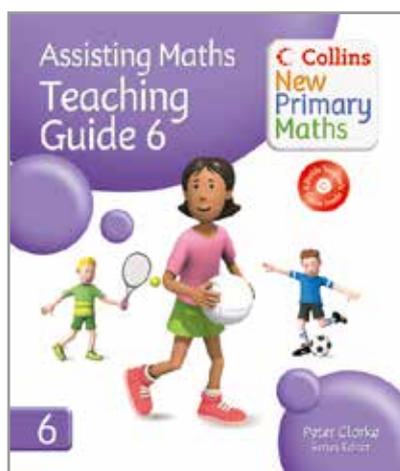

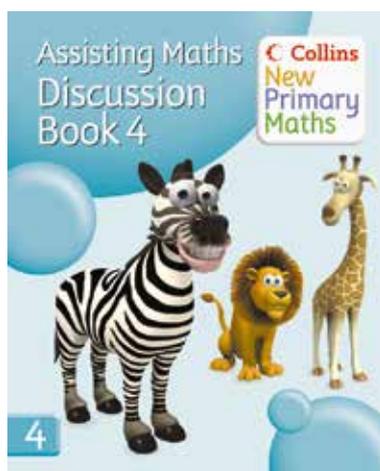

Collins
New
Primary
Maths

Collins New Primary Maths books were written for the previous curriculum but still offer great support and extension for struggling and confident pupils.

Deliver a personalised programme of support and intervention for those children working below age-related expectations.

For each year group, there is a Teaching Guide and Pupil Discussion Book.

- The Teaching Guide provides detailed lesson plans with a consistent teaching approach of: Assess, Teach, Practise, Apply, Review and Assess. Assisting Maths helps children who are struggling to understand mathematical concepts
- The Pupil Discussion Book provides a highly visual approach with practical games and lots of models and images so children can easily follow the maths

Snap Science

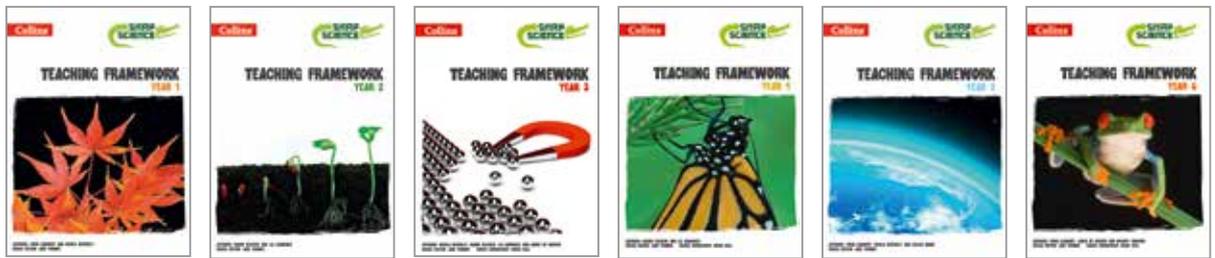

Series Editor: Jane Turner

Authors: Chris Banbury, Nicola Beverley, Naomi Hiscock, Liz Lawrence, Christine Moorcroft, Bryony Turford, Hellen Ward and James de Winter

Snap Science is a dynamic, comprehensive programme, packed with inspirational resources, designed to help you deliver outstanding science throughout your school.

- **Cultivate a spirit of enquiry** in your pupils with practical exploration and investigation activities to inspire the whole class
- Access **clear progression** within the "big ideas in science" which is clearly visible within each topic and each module
- **Review, track and record every child's progress** – with complete coverage of all concepts and skills from the new Teacher Assessment Framework providing a comprehensive assessment solution, written by the experts.
- **Make challenging concepts meaningful for pupils** with guidance and support for you
- Utilise **simple science solutions** which support you in delivering engaging lessons and extending your subject knowledge
- **Help every child achieve** – with three levels of differentiated challenge in every lesson
- Trust Snap Science to support you – written by a **team of curriculum, and science experts** led by the Primary Science Quality Mark (PSQM) National Director Jane Turner

What one school had to say about Snap Science...

"To support planning and delivering the new science curriculum, we purchased Snap Science. Each lesson starts with an opportunity to explore, before going into fun activities for the children to complete . . . The teachers in my school are enjoying using the Snap Science planning, and delivering the lessons. The resources are well matched to the New Curriculum and each unit ensures progression. The modules within Snap Science also cover a range of enquiry types which is an essential aspect of the New Curriculum." Chris Dorey, Year 3 Teaching Team Leader, Crosshall Junior School

MEET THE BRAINS BEHIND SNAP SCIENCE...

Series Editor: Jane Turner

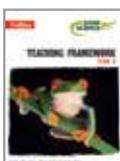

Jane Turner has been a primary school teacher, science outreach leader manager, LA consultant, CPD leader, and curriculum developer. Jane co-founded and is currently National Director of the Primary Science Quality Mark award scheme as well as working as Science Curriculum Advisor to the DfE Standards and Testing Agency.

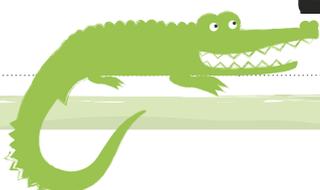

Jane's team of Snap Science authors, Chris Banbury, Nicola Beverley, Naomi Hiscock, Liz Lawrence, Christine Moorcroft, Bryony Turford, Hellen Ward and James de Winter are all highly experienced teachers who now work as consultants, LA advisers and in Initial Teacher Education.

You can try Snap Science with your class for FREE. Visit www.collins.co.uk/snapscience to sign up today!

Easy to implement

With an easy-to-use planning tool at the heart of the resource, **Snap Science** is easy to implement across your school. Flexible lesson plans allow you to plan effectively for the needs of your class whilst having everything you need for an outstanding science lesson at your fingertips. Each lesson is teeming with enquiry based, hands-on activities incorporating a range of digital resources to ensure every lesson is rich, lively and engaging.

Every lesson begins with a question – providing a focus for children to explore and think about

Each lesson contains three levels of differentiated challenge to ensure all children can access and master the lesson's learning intention

OUR CHANGING WORLD: PLANTS

LESSON 3: WHAT FLOWERS CAN WE FIND DURING DIFFERENT SEASONS?

Key vocabulary: flower, blossom, petals, stem, stalk, comparative language – small, little, big, large, single, lots, names of a variety of garden and wild plants found around school

Resources: Flowering plants in pots, for example, tulip, lily, geranium, primry, cosmos, lavender, hushia, busy lizzie, plant catalogues (or similar) with flower images, bunches of cut flowers (if necessary), cameras, digital magnifier, 'collector trays' (small plastic food trays are good for this), pieces of card, colour strip cards, double-sided sticky tape, Our Changing World (OCW) diaries, secondary resources, including books and the internet, for plant and flower identification

Health and safety: Ensure that children wash their hands thoroughly whenever they touch plant material or soil. Be aware of children who may suffer from hay fever, asthma or other allergies that may be triggered by the pollen produced by the flowers. See Be Safe! sections 6 and 9.

Key information: It is advisable for young children to use the brackets to describe simple and compound flowers. A simple flower has petals and contains a single set of reproductive organs at the centre, for example, buttercup and lily. Many common flowers that children are familiar with are 'compound'. Compound flowers appear to be single flowers, but the 'flower' itself is actually made up of numerous small flowers or 'florets' arranged within a flower head. Daisies, dandelions and sunflowers are good examples of this. The petals around the outside of a sunflower are in fact 'ray flowers'. At the centre of the flower head there are many tiny button shaped florets, each containing both male and female reproductive organs.

Lesson Summary: This series of lessons links to Module 1, 'Plant Detectives, Lesson 3, What is the same and different about the plants around us?', which is intended to be taught during the summer months, when a large variety of plants are flowering. These lessons encourage children to recognise that many plants flower at other times of the year, not just during the summer. In addition to observing flowers in June or July, children should make three other visits to observe plants in flower earlier in the school year: Autumn – September, October – dahlia, chrysanthemum, autumn crocus and late flowering plants like roses and geranium Winter – January, February – winter flowering cherry, aconite, snowdrop, hellebore, crocus, pansy, narcissus, and daffodil Spring – March, April – blossom on trees including cherry, blackthorn, hawthorn, apple, horse chestnut, tulip, bluebell and lily of the valley These lessons also link to Lesson 3 of OCW: Sensing Seasons.

Preparation required: Ensure that children have access to flowering garden and wild plants growing in situ, for example, in the school grounds and flower borders, in wildlife areas or meadows, in tubs, grow bags or in the school grounds and flower borders, park or planted space. Identify where the plants are located in advance of each visit so that you can guide children's searches as necessary. Also provide examples of potted flowering plants that may already be familiar to children.

National curriculum links: Observe changes across the four seasons

Working scientifically links: Observing closely using simple equipment

Scientific enquiry type: Observing changes over a period of time

Learning intention: To recognise that flowers seen around school vary depending on the season

EXPLORE: Show children three images of named flowers from the Odd one out slideshow (Slideshow 1). Ask children to describe each one and then ask them which one they think is the odd one out. Children may answer, "I think the lily is the odd one out" (because it is trumpet shaped and the others are not) or "I think the dandelion is the odd one out" (because it is yellow and the others are both white).

ENQUIRE: Explain to children that in this lesson they are going to go out into the school grounds and collect a rainbow of flowers that are flowering this season. Ask different groups of children to seek out flowers of different shades of one colour, so that the whole class builds up the rainbow flower collection collaboratively. Children should use colour strip charts (showing shades of a colour, for example, yellow, purple, white, blue and red) to help them identify and select flowers of an appropriate colour. Limit children to single flowers and, where examples are limited, supplement with photographs, images from plant catalogues and additional garden flowers or wild flowers, sourced locally.

Success criteria:

- I can make observations of familiar flowers, noticing the range of colours that exist.
- I can identify and name some flowering plants and recognise that they produce flowers at different times of the year.
- I can explain why flowers I see around school change depending on the season.

Challenge 1: Children use a colour chart as they hunt for flowers that include a particular colour and identify them as garden plant flowers or wild plant flowers

Challenge 2: Children use a colour chart as they hunt for flowers that include a particular colour and identify them as garden plant flowers or wild plant flowers

Challenge 3: Children use a colour chart as they hunt for flowers that include a particular colour and identify them as garden plant flowers or wild plant flowers

REFLECT AND REVIEW: After the first lesson, ask children to look at their collaborative flower rainbow and to discuss the flowers that they collected.

EVIDENCE OF LEARNING: Watch and listen to children over the course of these lessons as they make their observations of flowers and describe how these change over time. Can they make observations of familiar flowers and describe how these change over time. Can they make observations of familiar flowers and describe how these change over time. Can they make observations of familiar flowers and describe how these change over time. Can they make observations of familiar flowers and describe how these change over time.

Sample from Y1 Teaching Framework

Each lesson links directly to the Programme of Study and the Working Scientifically criteria

Prompt questions are included throughout to develop and assess children's understanding

Snap Science online toolkit

Collins **Connect**

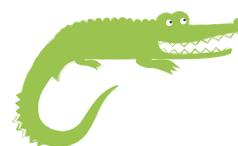

Snap Science is delivered via **Collins Connect** – our innovative online learning platform. Providing a wealth of content and interactive activities, **Collins Connect** is an ideal front-of class teaching and learning tool. See what **Snap Science** has to offer via **Collins Connect** below...

Access all of the lesson sequences, lesson plans and related assets with a discrete area for each year group, including support for: planning, teaching and tracking progression

Videos enable you to make real-world links and to show children environments and activities that cannot be easily accessed from the classroom

Illustrations and animations help to model and explain abstract concepts

Samples from the image bank

Snap Science Foundation

Snap Science Foundation provides a solid grounding into the introductory principles of science. It covers the requirements of the 2014 Early Years Foundation Stage, delivered through 24 flexible activity plans that ensure comprehensive coverage of common scientific topics including:

Biology

What do worms do?
Who has stripes?
What is in an egg?
What am I made of?

Chemistry

Who made this home?
Who lives here?
Which hat is best? (weather-dependent)
What melts?

Physics

What is night?
What is in the sky?
What is the moon?
What makes it move?

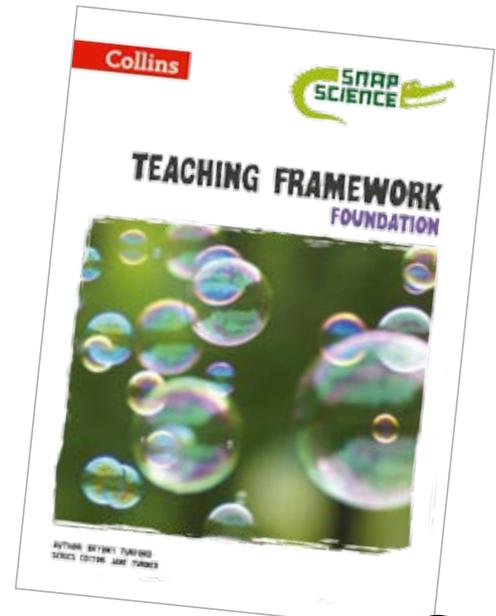

Our Changing World

What is happening to the trees? (autumn)
What is happening to the trees? (spring)
What is happening to the trees? (summer)
What's the weather like today? (winter)

Each activity plan is accompanied by a slideshow of a short fictional story based on meaningful science that leads to a problem or question at the end for pupils to answer. Accompanying the activity plans are downloadable resource sheets and photo banks, saving you time and effort.

Each activity plan is available as a downloadable MS Word file making it easily adaptable to your school.

Assessment for learning is embedded throughout the Foundation year, building on the core strength of **Snap Science**.

Sample from Story slideshow – Activity plan 1

Record Keeping for Snap Science

The Record Keeping section for **Snap Science** allows you to select a traffic light for each child for each curriculum statement (green = mastery achieved and exceeded, amber = mastery achieved, and red = mastery not yet achieved).

At any time you can easily view and export the data by pupil, by module or by curriculum statement in grid or pie chart form – ideal to take to parents' evening or show Ofsted.

Easily drag-and-drop pupils into the relevant mastery section and add comments to those not achieving and those exceeding

Within the progress tracker you can view class results by module and see these in chart form

Samples of Record Keeping

Collins International Primary Science

Endorsed by Cambridge
International Examinations

Authors: Karen Morrison, Fiona MacGregor, Daphne Paizee, Phillipa Skillicorn, Tracey Baxter, Sunetra Berry, Pat Dower, Helen Harden, Pauline Hannigan, Anita Loughrey, Emily Miller, Jonathan Mille, Anne Pilling and Pete Robinson

Meets the needs of primary science students and teachers worldwide

- Deliver the requirements of the Cambridge International Examinations Primary Science curriculum framework
- Excite students with stunning visuals in the photograph rich, full-colour Pupil Books and on the DVD-ROMs
- Help every child to progress with activities designed to develop their scientific enquiry skills
- Save planning and preparation time with the comprehensive Teacher's Guide including clear suggestions for using the materials and the electronic components of the course

Connected Geography

NEW Age 5-11 KS1 KS2

Connecting the curriculum through enquiry based learning

Connected Geography provides a fully documented and resourced cross-curricular geography programme that **meets the requirements of the National Curriculum.**

This curriculum programme has been carefully designed to increase the confidence and extend the professional expertise of colleagues teaching geography in a primary school.

The Connected Geography programme is made up of 18 enquiries – 6 for Key Stage 1, 6 for Lower Key Stage 2 and 6 for Upper Key Stage 2. Careful consideration has been given to ensuring continuity and progression through the programme Years 1 – 6 in terms of knowledge and understanding, geographical skills and conceptual development.

As well as providing a complete geography curriculum *Connected Geography* also makes meaningful links with other subject disciplines and SMSC – **it is a truly geography focused cross-curricular programme.** In so doing it supports children in understanding the world as it really is – connected and interdependent.

About the author

David Weatherly is a School Improvement Adviser and Curriculum Consultant 4-18.

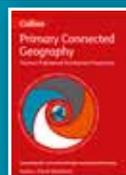

He works with schools, teachers and trainee teachers nationally and internationally to design engaging and challenging curricula and to develop learning and teaching strategies which both motivate and improve the performance of children and young people. He teaches regularly at all stages of learning.

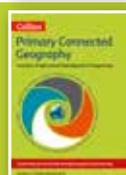

Level: **Key Stage 1**
ISBN: **978-0-00-816787-5**
PRICE: **£95.00 (downloadable file)**

Level: **Key Stage 2 (years 3 and 4)**
ISBN: **978-0-00-816785-1**
PRICE: **£95.00 (downloadable file)**

Level: **Key Stage 2 (years 5 and 6)**
ISBN: **978-0-00-816788-2**
PRICE: **£95.00 (downloadable file)**

Level: **Key Stage 1 to year 6**
ISBN: **978-0-00-816786-8**
PRICE: **£250.00 (downloadable file)**

Within each enquiry teachers are provided with:

The context of the investigation	Clear learning objectives
The key subject vocabulary	Background subject content knowledge about each topic
Comprehensive learning and teaching activities	Suggested opportunities for assessment
A wealth of wide ranging and multimedia resources	Homework possibilities

Primary Geography

Collins

PRIMARY
GEOGRAPHYAge
5-11

EY

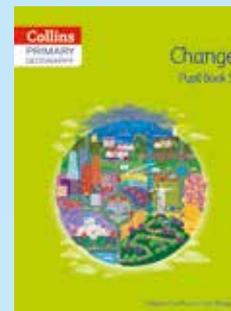

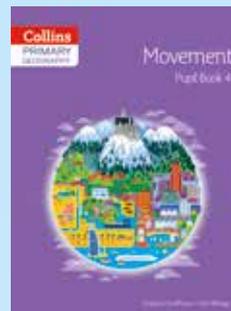

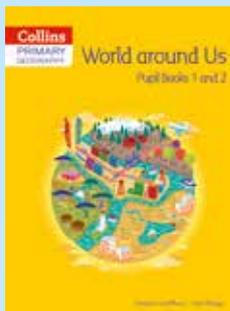

KS1

KS2

CP

Authors: **Stephen Scoffham and Colin Bridge**

Engage pupils aged 5–11 with a skill-based course covering key aspects of physical and human geography

Collins Primary Geography provides a progressive, skills based scheme for primary school pupils. Detailed case studies, as well as an extensive range of evidence, are used to stimulate children's interest and develop investigative skills.

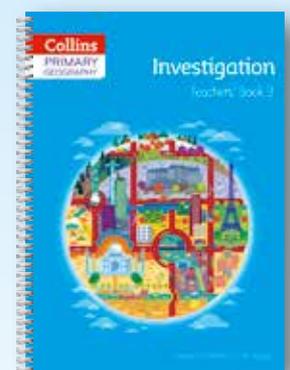

How does Primary Geography fit in with the new curriculum?

- *More focus on Locational Knowledge* – there's emphasis on up-to-date case studies, a range of maps and atlases, individual sections on the UK countries and comparisons with the UK to the wider world.
- *More focus on local enquiry* – Teacher Guides provide advice and tips on how to incorporate local area study into your lesson plans.
- *Emphasis on extended writing to tie in with literacy* – investigation points for each lesson offer varied writing exercises to improve literacy skills with both descriptive and comparative exercises.

Teacher Guides

Each accompanying Teacher Guide supports the Pupil book with:

- Planning support for each lesson with clear links on how to develop pupils' map and investigative skills
- Advice on progression, differentiation and assessment within the scheme
- Extension activity copymasters for every Unit included

Pupil Books

- Each book is divided into units covering physical, human and environmental geography

Subject specific language introduced throughout

Advice on how to study your local area

Unit 1 • Landscapes

Lesson 3: Investigating landscapes

What is the landscape like in the British Isles?

The British Isles are made up of mountains, hills and lowlands. Most of the mountains are in the north and west. There are lowlands in the south and east. The rocks which make up the landscape date back as much as 700 million years.

Look at the map carefully. Can you find where you live? Do you live in the mountains, hills or lowlands?

Data Bank

- The British Isles consists of Great Britain, the whole of Ireland and offshore islands.
- Great Britain is the eighth largest island in the world.

Discussion

- Are the British Isles mostly hilly or flat?
- Which colour on the map shows where most people live?
- Which sea is closest to where you live?

Mapwork

Working from the map make a list of (a) mountain ranges (b) rivers.

Unit 1 • Landscapes

Key words

- British Isles
- Grampian mountains
- Ireland
- River Thames
- Snowdonia

A local enquiry

At St Mary's School the children did a project about their local landscape. They began by imagining there were no buildings. Then they made a big plan of the area around their school naming the features that they knew.

Working from their plan, the children made a list of landscape words. They drew lines linking these to a list of describing words. Finally they wrote a report about their area to describe their local landscape. You could do a similar project where you live.

▲ Aerial view over Liverpool city

Investigation

Download some pictures of different landscapes or cut them out from magazines. Write some sentences about each landscape for a class wall display.

The children made a large plan.

They linked a list of landscape words with a list of descriptions.

They wrote a report about the area.

Summary

- In this unit you have learnt:
- the surface of the Earth.
- different landscape features.
- how to study the landscape.

Discussion points for each lesson help check comprehension

A wide range of photographs, maps, charts and diagrams

Resources CDs

Accompanying DVDs for both Key Stages provide excellent support for pupils.

Resource DVDs include:

- Maps
- Videos
- Photo slideshows
- Lesson plans
- Interactive classroom activities
- Editable Teacher Guides

Collins Primary Atlases

Collins

Collins First Atlas

Age 4+ EY KS1

- Collins First Atlas introduces maps with geographical features to help children understand concepts such as shapes and symbols
- Simple, colourful maps with clear labelling gently introduces children to geographical vocabulary

Collins First Atlas Interactive edition

- Digital editions of the maps featured in the atlas include pop-up fact boxes and interactive activities
- Teacher notes are included for each map

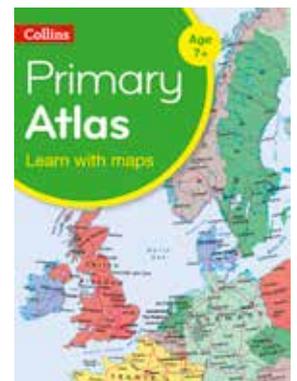

Available on DVD and via Collins Connect

Collins Primary Atlas

NEW Age 7+ KS2

A curriculum-supportive World Atlas for children aged 7-11 years. Designed for use in the classroom or at home, this revised edition includes informative politically coloured reference mapping of all major world regions.

- Information is given on map reading skills, the meaning of scale and measuring distances
- The maps are informative, politically coloured, and easy to read with national capitals and major cities easily identifiable
- Mapping is supported with national flags and basic national statistics
- Continental maps are linked to the regional mapping and is supplemented by a selection of aerial and terrestrial photographs
- The index uses a simple grid reference system and a selection of web addresses is included to help with further study

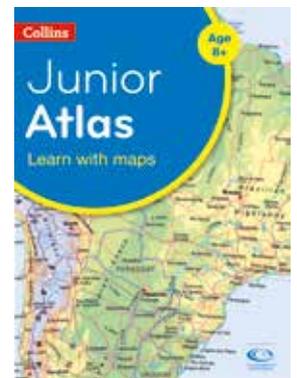

A whiteboard edition is also available on CD for whole class activities

Collins Junior Atlas

Age 8+ KS2

- Strong UK Curriculum focus: topic maps, satellite imagery and photography help put mapping information into context
- Teach today's world: the latest facts and statistics are included, enabling you to teach pupils about the world today

Rainbow Good News Bible

Age 5-11 KS1 KS2

The Rainbow Good News Bible offers a colourful, illustrated bible that will help to instil a love of Bible reading in children, with a translation that is both accessible and trustworthy.

- The first choice for primary school teachers
- Illustrated with simple, yet charming illustrations
- Beautiful colour pictures of well-known Bible stories
- Extra Supplements included aid learning

Rainbow Good News Bible
978-0-00-748011-1 £16.99

New Life Good News Bible

Age 10-11 KS2

The New Life Good News Bible is ideal for children and young adults discovering the world around them and eager to learn how the Bible interprets these events.

- Includes a 64 page section of articles covering contemporary issues such as the Internet, abortion, sexuality and more.
- Suitable as a Year 6 leaving present to prepare pupils for secondary school.
- Features colourful illustrations by Annie Vallotton and a new introduction by Nick Page.

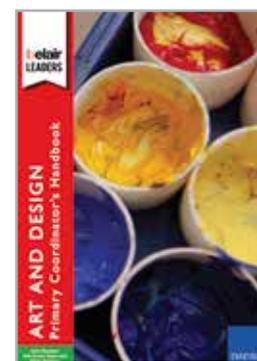

New Life Good News Bible
978-0-00-748013-5 £16.99

Classroom display and more

Belair books help teachers to develop excellent practice across the primary curriculum. Each title offers a wealth of inspirational, expert advice and achievable, classroom-tested ideas that you'll use year after year.

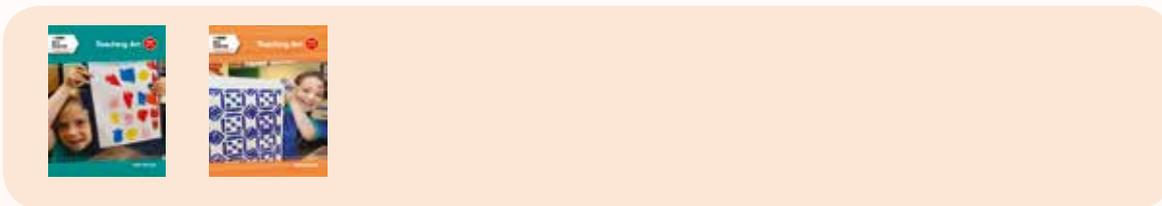

- Packed with creative approaches to teaching and learning, Belair's unique support will help you to teach brilliantly and make a real difference in your classroom through your subject leadership
- Written by expert practitioners, skilled at developing strong visual resources, who have an infectious enthusiasm for creative teaching practice, so you can be confident that the ideas will work
- Each book is richly illustrated with real examples of children's work to show just what you and your pupils can achieve
- Learn how to use display as an integral teaching and learning tool with **Belair On Display**, resources which include full support for accessing and extending topics across the primary curriculum
- Nurture early learning with a wealth of creative and practical ideas for learning through play in **Belair Early Years**, perfect to support the new Early Years Foundation Stage

Age 3-5 EY

Belair Early Years

Nurture early learning with a wealth of creative and practical ideas for learning through play ideal to support the Early Years Foundation Stage 2012. Twelve exciting books offer ideas across all areas of learning.

- Tried-and-tested activities provide a flexible and non-prescriptive approach to working with children, with clear learning intentions provided for each topic
- Imaginative themes encourage children to play, explore and learn actively in the classroom and outdoors

Language and Literacy

- Choose a numeral and make a book about that number. Draw a large numeral on the front cover. Inside, draw or stick examples of that number of items. Add the children's writing (or scribe for them).
- Make up a story orally with the children, using objects and numeral cards as props, for example: "Mr Bear went to the shops to buy three apples. He chose three big, red apples and counted them into the bag, one, two, three."

Creative

- Provide a set of construction equipment or linking cubes on a table or mat. Ask the children to make a model from a specific number of pieces, for example ten. Any pieces can be chosen, but the model must contain the correct number of pieces. Make a drawing of each model, showing who made it and what it is. Display the models with a sign saying 'Look what we can make with 10 cubes!'
- Explore a range of musical instruments. Set up a class orchestra with groups of children playing a particular instrument. Display each group and show them a numeral card to tell them how many times to play their instrument. Choose a confident child to take over as conductor.

Outside

- Set out a line of cones with a spot card attached to each one. Balance a light plastic toy on the top of each cone. Run and fill some squeeze bottles with water. Use the water to knock the tops off the cones, as in fairground shooting games. Give instructions such as 'Knock the object off number five.' 'How many toys can each child knock off with one bottle of water?'

Our World

- Make a large batch of pizza dough and give each child a chunk to flatten into a pizza shape. Help each child to spread the top with crushed tomato or tomato purée.

Home Links

Ask parents or carers to:

- look out for numerals around the home
- ask their child 'How many?' questions frequently.

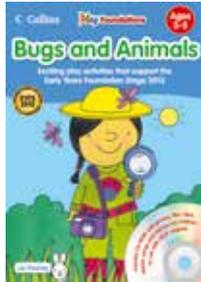

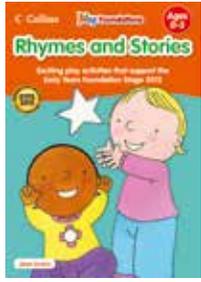

Photographs of real children's work to illustrate potential learning outcomes.

Extension activities to promote home-school links and involve parents.

“The Belair Early Years series covers a comprehensive range of innovative and creative activities across the curriculum. The ideas promote exciting learning opportunities through exploration whilst developing children's skills through play.”
Sarah Deas, Early Years Practitioner

Play Foundations

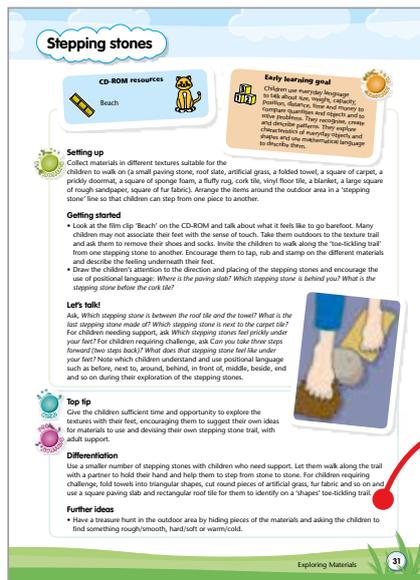

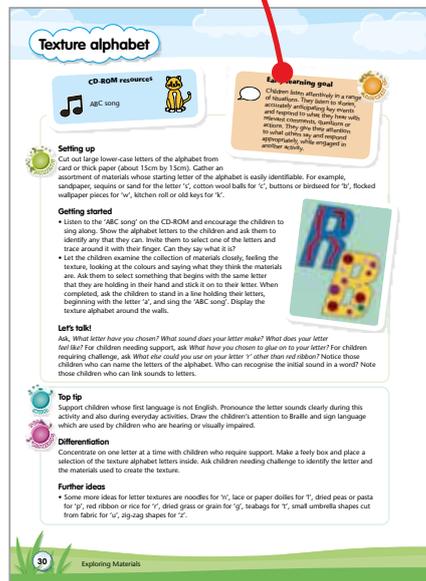

Age 0-5 EY

Play Foundations

New editions of the award-winning Play Foundations series, fully revised and updated to match the Early Years Foundation Stage 2012 curriculum.

- An exciting collection of play-based activities focused on child-initiated learning with six books for children aged 0 to 3 and six books for children aged 3 to 5
- The focus of each activity is clearly identified by prime and specific areas of learning and development in a straightforward planning chart
- Books for children aged 3 to 5 include an engaging CD-ROM with photos, film clips, stories, songs and rhymes for children to use with adult support

References to the Early Learning Goals and statements from Development Matters to support observation and assessment of progress.

Reach every child with ideas for adapting the activities to meet varying abilities

KS2

Our new range of revision and practice resources supports the 2014 curriculum and will prepare pupils for the 2016 tests and beyond.

When it comes to getting the best results, practice really does make perfect!

Matched to the requirements of the National Curriculum, Collins Revision and Practice contains clear and accessible explanations of every topic with lots of practice opportunities throughout.

Based on new research that proves repeated practice is more effective than repeated study, the books are guaranteed to help improve performance in tests and assessments.

- Five spaced practice opportunities for every topic
- Quick tests to check understanding
- Differentiated practice questions at the end of each topic
- Review and mixed practice questions later in the book
- Downloadable flash cards for use in the classroom and at home

Revise

Structure and Organisation

Understand how texts are structured and organised. Analyse the use and effects of paragraphs, sentences and word order.

Ways of Structuring and Organising Texts

- When you are reading texts, there are several ways that you might look at **structure** and **organisation**, for example:
 - Paragraphs – Are they short or long? What effect does this have?
 - Sentences and word order – What types of sentences are used? Where in the sentence are the key ideas? What effect does this have?
 - Connectives – How do they make the meaning flow more easily? How do they link different parts of the writing together?
 - Openings and endings – What effect are they trying to create?
 - Punctuation – How does it divide the text? What effects does it create?

Key Point

Structure and organisation can refer to many features of a text.

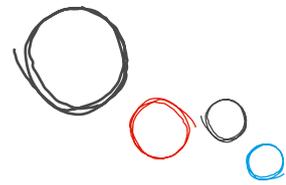

Paragraphs, Sentences and Word Order

Different paragraph lengths can have different effects. For example, short paragraphs can be used to shock or surprise the reader. Long paragraphs can be used to add extra descriptive detail or to build up tension.

Different sentence lengths can also have different effects. Short paragraphs, shortness can be used to create shock and length can add detail. Where the main idea of a sentence can also change its importance.

The subject of the sentence (labbags) is given straight away.
 Turned a built up by changing the...

Revise: Clear examples and quick tests help pupils check their understanding

Practice Questions: questions are organised into three levels of increasing difficulty to help pupils progress

KS2 English sample page

Example
 The boy and his parents got there, it was...

Openings and Endings

The opening of a piece of writing is important because it has to get the reader's attention clear what the purpose of the writing is. The ending of a piece of writing is also important because it gives the reader a chance for a writer to make their point or they may include their most important message.

Punctuation

Punctuation is important because it makes the meaning clear.

Example

- Let's eat Grandma's cake.
- Let's eat, Grandma!

a) 12m to g
 the area and perimeter of this rectangle:

A = _____ cm²
 P = _____ cm

side of a regular pentagon measures 8cm.
 What is the perimeter of the shape? P = _____ cm

Chloe came back from a fortnight's holiday on 12 July.
 On what date did she go on holiday? _____

Challenge 1

1 The perimeter of the rectangle is 29 m. What is the width of the rectangle?

Width = _____ m

2 What is the volume of this cuboid?

V = _____ cm³

Convert 23 467 m to km.

Round your answer to one decimal place. _____

What is the area of this triangle? A = _____ cm²

KS2 Maths sample page

Review

Underline the verbs in these sentences:

- The swimmer won the race.
- Instead of chips, they ate curry.
- During the meal they talked constantly.

2 In these sentences, there is an adjective in brackets. Change it into an adverb for the sentence to make sense.

Example – The singer sang the song (quiet). _____ quietly

- The athlete ran (quick) to the finish line. _____
- Robbie (clever) released 50 songs on his new album. _____
- Tara smiled (reluctant) before eating the carrots. _____
- Josh ambled (lazy) to the shed. _____
- (Amazing), Jennifer had done her homework. _____
- (Lucky), Dan had put the chicken in the oven on time. _____
- Kristina had (fortunate) won the lottery. _____
- Peter had (intelligent) found a way to solve the puzzle. _____
- The June snow (crazy) forced the game to be cancelled. _____
- Katrina walked (cautious) to the shops. _____

3 Not all words that end in 'ly' are adverbs. Read these sentences and decide whether the word ending in 'ly' is an adverb or an adjective. Tick the correct boxes.

	Adverb
1 The athlete ran quickly to the finish line.	<input type="checkbox"/>
2 Robbie cleverly released 50 songs on his new album.	<input type="checkbox"/>
3 Tara smiled reluctantly before eating the carrots.	<input type="checkbox"/>
4 Josh ambled lazily to the shed.	<input type="checkbox"/>
5 (Amazingly), Jennifer had done her homework.	<input type="checkbox"/>
6 (Lucky), Dan had put the chicken in the oven on time.	<input type="checkbox"/>
7 Kristina had fortunately won the lottery.	<input type="checkbox"/>
8 Peter had intelligently found a way to solve the puzzle.	<input type="checkbox"/>
9 The June snow crazily forced the game to be cancelled.	<input type="checkbox"/>
10 Katrina walked cautiously to the shops.	<input type="checkbox"/>

Review Questions: Review questions later in the book help pupils to revisit topics

Mixed Questions: Mixed practice questions at the end of the book give pupils a chance to test their knowledge in a more real 'test' style

KS2 English sample page

Mix it up

1 Which of these are prime numbers?
 25, 39, 41

2 Mr Jones wants to hire a bike for four hours. Which price plan is cheapest?
Price Plan A – Morning or afternoon £6.50, including helmet hire
Price Plan B – £1.25 per hour. Helmet hire £2.00

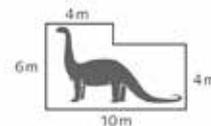

62 $48.35 - 8.48 =$ _____

63 Change these mixed numbers to improper fractions:

$1\frac{4}{5}$ $2\frac{1}{2}$ $1\frac{2}{10}$ $3\frac{1}{3}$

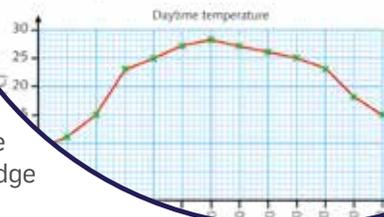

64 $\frac{1}{2} \times \frac{1}{3} =$

PS 65 What is the perimeter of the dinosaur paddock?

_____ m

66 For how many hours was the temperature above 25°C?
